

Position: Site Inspection Engineer (Civil) – Third Party RO Inspection

Location: Ahmedabad, Rajkot, Uttarkashi

Openings: 3 to 4 Positions

Preferred Qualification: B.E./Diploma in Civil Engineering

Job Description:

We are looking to hire experienced Engineers (preferably Civil Engineers) for Third Party Inspection roles at multiple Retail Outlet (RO) locations under Ahmedabad, Rajkot, and Uttarkashi. Candidates must possess a sound understanding of OISD 225 and PNGRB Guidelines, and have prior experience conducting inspections at Retail Outlets (ROs).

Key Responsibilities:

Conduct Third Party Inspections and provide certification for online critical work permits on the client portal.

Supervise, inspect, verify, certify, and vet works being executed at Retail Outlets/construction sites.

Ensure all activities are compliant with tender conditions and relevant safety and quality standards.

Execute inspections under the guidance and satisfaction of the Engineer In-Charge.

Maintain detailed records of inspections and issue necessary documentation for clearances.

Eligibility Criteria:

Minimum 2–5 years of experience in Retail Outlet inspections.

Thorough knowledge of OISD 225 and PNGRB norms.

Strong attention to safety and quality standards.

Willingness to travel across assigned locations (Ahmedabad, Rajkot, Uttarkashi).

Experience with documentation and online clearance portals will be an added advantage
