Outskill

Generative AI For Tech Professionals (Bootcamp)

This Certificate is Proudly Awarded to

Rajesh Puliampatti Natarajan

for successfully completing the 2 Day Generative AI Engineers' Bootcamp
Designed to equip professionals with practical AI engineering skills through hands-on, project-based learning. Learners built agentic workflows, MCP-powered systems, research tools, and production-ready RAG applications using advanced AI technologies.

Skills Demonstrated

- AI Developer Productivity
- Agentic Workflow Development
- MCP Skills & Integrations
- Research Automation Systems
- Multi Agent Orchestration
- RAG & Knowledge Systems Development
