## HP METAQUENCH 42

QUENCHING OILS

### DESCRIPTION

General purpose compounded quenching oil suitable for quenching of components for conditions when higher quenching speeds are required.

### MEETING SPECIFICATIONS

IS:2664-1980 (Re-affirmed in 1987) straight mineral type grade compounded.

### APPLICATION AREAS

General purpose quenching oil of all components. However, this oil is not suitable for quenching cyanided parts.

### PERFORMANCE BENEFITS

- Good thermal conductivity
- Good oxidation stability
- Low volatility
- Excellent wetting characteristics
