HP NEOSYNTH 5W 30

High Quality Synthetic Engine Oil for
Modern Petrol & Diesel Cars

DESCRIPTION

HP NEOSYNTH 5W 30 is a high quality synthetic engine oil specifically designed for modern cars running on Petrol/Diesel/LPG/CNG/Bio-Diesel.

HP NEOSYNTH 5W 30 is manufactured from finest API Group III base stocks and state of the art additive technology to meet the most stringent requirements of API SN, ACEA A5/B5 thus making it suitable for modern cars running on petrol or diesel fuels.

HP NEOSYNTH 5W 30 provides exemplary benefits in reduction of piston deposits, improved fuel economy benefits and after treatment compatibility. The product is also designed to exhibit improved performance in bio-diesel fueled vehicles.

APPLICATIONS

HP NEOSYNTH 5W 30 is recommended for various models of Tata Motors, Maruti-Suzuki, Hyundai Motors, Renault, Nissan, Datsun, Chevrolet, Toyota, BMW, GM and Ford etc. requiring a 5W-30 engine oil, running on Petrol/Diesel/LPG/CNG/Bio-Diesel etc.

FEATURES & BENEFITS

- High fuel efficiency
- Unmatched reduction in piston deposits
- Improved after-treatment compatibility
- Improved protection against Sludge
- Improved bio-diesel compatibility
- Low oil top-up
- Longer engine life

MEETS REQUIREMENTS OF

- API SN
- ACEA A5/B5-12

PHYSICO-CHEMICAL PROPERTIES (TYPICAL)

Kinematic Viscosity @ 100°C, cSt	10.5
CCS Viscosity, @ -30 °C, cP	5600
Viscosity Index	135
Flash Point, COC, °C	220
Pour Point, °C	-36
TBN, mg KOH/gm	10
