

LUBRICANTS

POWER TO PERFORM

HP AUTO TRANSMISSION FLUID A

High Quality Automatic Transmission, Torque Converter and Power Steering Fluid

DESCRIPTION

HP AUTO TRANSMISSION FLUID A is a high quality automatic transmission fluid manufactured from highly refined base stocks and carefully selected additives, to provide a superior performance in the automatic transmission systems of automotive.

HP AUTO TRANSMISSION FLUID A provides superior protection for the automatic transmission system against wear & corrosion, while its high viscosity index ensures unmatched lubrication at high operating temperatures.

APPLICATIONS

HP AUTO TRANSMISSION FLUID A is recommended for automatic transmissions and power steering systems of vehicles requiring general motors "TYPE A SUFFIX A" quality fluids.

It is also recommended for synchromesh gear boxes and certain manual transmissions, torque converters and hydraulic systems, where such types of fluids are specified.

FEATURES & BENEFITS

- Superior oxidation and thermal stability reduces deposit formation
- Superior anti-wear protection to critical parts
- Very high viscosity index and low pour point ensures proper lubrication in both high temperature operation & low starting temperatures
- Good shear stability implies a longer service life of oil and the hardware
- Good foam control leads to smooth gear shifting
- Compatible with all common elastomers
- Provides good protection against rust and corrosion

MEETS OR EXCEEDS REQUIREMENTS OF

General Motors Type A Suffix A

PHYSICO-CHEMICAL PROPERTIES

Kinematic Viscosity, @ 100°C, cSt, Min	7.0
Viscosity Index, Min	140
Color	Red
Flash Point, COC, °C, Min	175
Pour Point, °C, Max	-36
Cu-Strip Corrosion, 100°C, 3 hrs, Max	1
