## HP KOOLKUT 60 METAL CUTTING FLUIDS

### DESCRIPTION

General purpose emulsifiable cutting oil forming a translucent emulsion. The ultra-fine dispersion of the oil globules reduces grinding wheel clogging and low oil content emulsion may be used safely without loss of non-corrosive properties.

### MEETS SPECIFICATIONS

IS: 9611-198

### APPLICATION AREAS

Suitable for all metals for machining operations where emulsifiable oils are normally used.

The recommended concentration is between 5 to 10 % depending on the severity of machining. Particularly useful for all applications where sight of the work place is important.

### PHYSICO-CHEMICAL PROPERTIES

PROPERTIES	KOOLKUT 60
