

**LUBRICANTS™**

**POWER TO PERFORM™**

## YANTROL / YANTROL N SERIES GENERAL PURPOSE MACHINERY OILS

### SPECIAL FEATURES

YANTROL grades are high quality lubricating oils intended for general lubrication of industrial machinery. They are manufactured from selected base stocks and fortified with additives like antiwear and antirust. They are specially developed for steel mill general purpose lubrication.

### APPLICATION AREA

YANTROL grades are general purpose lubricants for 'once through' application situation in textile mills, paper mills and machine tools.

The grades are used in steel mills.

### PHYSICO-CHEMICAL PROPERTIES

	YANTROL/YANTROL N						
	32	68	100	150	220	320	460
Viscosity, Kinematic, @ 40°C, cSt	32	68	100	150	220	320	460
Viscosity Index	90	90	90	90	90	90	90
Flash Point, COC, °C, Min.	190	190	190	190	190	240	240
Pour Point, °C, Max.	0	0	0	0	0	0	0

### PERFORMANCE BENEFITS

- Excellent oil film strength
- Very good oiliness
- Very good of 'once through' application and 'boundary lubrication'
