

NIFTY SPOT : IMMEDIATE SUPPORT AT 22081-21882

TradingView

Source – TradingView, BP Equities Research

Nifty is currently at 22,124, down 2.94% for the week, marking five consecutive months of decline—a situation not seen in 29 years. Persistent selling pressure has hindered any potential rebound, as no hourly candle has closed above its previous high, underscoring a prevailing bearish sentiment. The index is now hovering near the critical support level of 22,000. The options market illustrates a cautious outlook, with significant call writing at 22,500 (1.20 crore contracts) solidifying resistance. Meanwhile, put accumulation at 21,800 (72.29 lakh contracts) establishes support. The 22,300–22,500 range remains a crucial supply zone, and the Relative Strength Index (RSI), currently below 25, indicates oversold conditions.

Support – 22081-21882-21700

BANKNIFTY SPOT : IMMEDIATE SUPPORT 48092-47897

TradingView

Source – TradingView, BP Equities Research

The Bank Nifty is currently positioned at 48,344, showcasing greater resilience compared to the Nifty by effectively resisting selling pressure and bouncing back from lower levels. Nonetheless, despite this relative strength, the index has recorded three consecutive months of losses. The range of 48,000–47,750 serves as a crucial support zone, while last week's low of 48,900 has become a significant resistance point due to aggressive call writing. Additionally, the RSI below 40 suggests weak momentum, reinforcing a bearish outlook. In the derivatives market, call writers are dominant, indicating a defensive posture. A notable build-up of open interest at the 49,000-strike call (10.20 lakh contracts) solidifies it as a key resistance level, while strong put writing at 48,000 (8.35 lakh contracts) establishes a robust support foundation.
