

NIFTY SPOT : IMMEDIATE SUPPORT AT 25160-25000

Source – TradingView, BP Equities Research

The benchmark index registered a 159-point rise, but the upmove was on lower-than-average volumes, signalling a lack of aggressive conviction. Price managed to reclaim the 25,200 mark, but the structure remains range-bound within a broader congestion zone capped by 25,260. The bounce came after defending the lower end of the recent demand shelf near 25,050, but price is still sandwiched between overlapping moving averages and historical supply. The candle structure suggests a reactive short-covering led move rather than fresh accumulation. On the options front, aggressive call writing persists at 25,300, while 25,100 sees moderate put additions — reinforcing a neutral-to-capped bias until a decisive range break emerges.

Intraday Nifty

Resistance – 25260-25380-25520

Support – 25160-25000-24860

BANKNIFTY SPOT : IMMEDIATE SUPPORT 57100-56590

Source – TradingView, BP Equities Research

The banking index rallied 454 points, closing near the day's high after opening close to the intraday low — a strong bullish intraday reversal. The move was yet again contained within the rising channel, but notably, price remains far from the upper trendline, implying there's still headroom before facing major resistance. However, volumes remained subdued, hinting at passive buying rather than active demand expansion. Interestingly, OI data shows fresh put writing at 56,500 and 56,700, reinforcing the bullish stance, while call writers appear to be retreating from 57,000 strikes — opening up room for momentum if follow-through persists.

Intraday Banknifty

Resistance –57310-57900-58500
