

NIFTY SPOT : IMMEDIATE SUPPORT AT 24680-24540

Source – TradingView, BP Equities Research

The benchmark index opened flat and traded in a range, ultimately ending the session marginally positive at 24,741. The index continues to hover around the critical support zone of 24,700–24,750, which has held firm over the last few sessions. On the upside, 24,850–25,000 remains a strong resistance, and only a sustained move above this zone can trigger a short-covering rally towards 25,100–25,250. On the options front, the 24,800 CE has seen significant writing, indicating stiff resistance, while strong put writing at 24,700 suggests immediate support. The overall setup points towards a consolidation phase, with directional momentum likely to emerge on a break of either side.

Intraday Nifty

Resistance – 24850-25000-25150

Support – 24680-24540-24400

BANKNIFTY SPOT : IMMEDIATE SUPPORT 54000-53500

Source – TradingView, BP Equities Research

The banking index managed to close slightly in the green at 54,114 after a highly rangebound day, with intraday moves failing to find follow-through strength. The index is currently taking support near the 54,000 mark, while the resistance zone is stacked up between 54,400–54,600, coinciding with short-term moving averages. A break above 54,600 could open the path for a move towards 55,000–55,200, whereas a failure to hold 54,000 may drag the index back towards 53,500. Options data reflects this indecisiveness, with heavy call writing at 54,500 CE capping the upside, while decent put writing at 54,000 PE is providing a cushion. The index may continue to consolidate within this range until a decisive breakout takes place.

Intraday Banknifty

Resistance –54400-55000-55500

Support –54000-53500-52900
