Earth Day

Digital Poster Making Activity

Dear Business Partners & Students,

On 22nd April, 2020 we celebrate Earth day, to demonstrate support for environmental protection. This year, we would be completing 50 years of the celebration globally, and we strive to save our planet with our own small ways.

To make a difference from our end, we have initiated a **Digital Poster Making Activity**, from 18th April to 22nd April, where students need to make create a poster on the theme “Little steps that can help save the planet”. Here students have to share a Poster design with based on the given concept and winners of the best posters will be announced via Creosouls Platform.

Let us all contribute to the world even while at home.
Looking forward to see some great participation amongst students.

Regards
Team Customer Engagement

Concept

Digital Poster Making Activity for Earth Day Initiative

Theme: “Little steps that can help save the planet”

Students need to share a Poster Design based on the given
i.e. what according to them are the steps any individual
can take to save the planet

What you need to do?

Create a Digital Poster based on the theme

Save in Hi-RES JPEG Format (Size 2MB max)

Send in your submissions via Creosouls platform

EARTH DAY

BRIGHT IDEAS FOR OUR FUTURE

<p>WATER</p> <ul style="list-style-type: none"> - Take short showers - Turn water off any time it is not being used - Hand wash dishes or run dishwasher only when it is full - Use an aerator at the end of all faucets 	<p>TREES</p> <ul style="list-style-type: none"> - Sign up for paperless billing and online bill pay - Rent textbooks - Sell or donate unused books - Use cloth bags for EVERY shopping trip - Use both sides of notebook paper 	<p>CLEAN AIR</p> <ul style="list-style-type: none"> - Carpool whenever possible (work, school, mall, store, etc.) - Walk to different portions of campus
<p>ENERGY</p> <ul style="list-style-type: none"> - Wash clothes on cold - Turn lights off anytime they are not being used - Turn the refrigerator down to the highest temperature that will keep groceries cold - Unplug all electronics when not in use 	<p>RESOURCES</p> <ul style="list-style-type: none"> - Recycle EVERYTHING - Buy green - buy recycled products whenever you can - Use refillable binders instead of notebooks - Recycle old cell phones - Recycle used ink cartridges

SAVE WATER SAVE LIFE

CARING FOR THE ENVIRONMENT

Save water
Turn the tap off when you are finished. Saving water is important because everything needs water to live.

Recycle
Sort rubbish and put recyclable items in the correct bin. Some items can be made into new products.

Walk or ride
Walk or ride your bike on short trips rather than taking the car. It creates less pollution.

Reduce rubbish
Put food scraps in a compost bin or worm farm. Composting improves the soil and reduces landfill.

Use less power
Switch the light off when you leave a room. Creating electricity makes pollution, the less power you use the less pollution.

Plant natives
Plant native species of plants, they provide food and habitat for wildlife.

Reuse
Use a drink bottle that can be washed and reused. Reusing items means less waste.

Say 'no' to plastic bags
Take your own carry bag when shopping. Plastic bags take years to degrade and can endanger wildlife.

What can you do to help the environment?
