

VIDEO GAME DAY

Dear Students,

8th July every year is celebrated as National Video Game Day, as the day Video Games were invented.

On that note, we are coming up with an interesting activity for students where they have to create a game poster for a brand new game, keeping in mind that the game concept and theme is revealed from the poster in one glance.

Bring out the gamer in you by participating anytime between 6th July to 10th July, 2020.

Regards
Team Customer Engagement

CONCEPT

Students need to create a new game concept for which they need to create a Launch Poster that illustrates or reveals the game theme and concept clearly.

The game concept and poster cannot be same as any existing video game. While they can take existing games for reference only, but their concept and poster must be unique.

WHAT YOU NEED TO DO?

Create a brand new game concept card and theme

Depict the theme by designing Game Poster which will reveal the concept

Submit your Game Poster in Hi-Res JPEG Format via Creosouls for evaluation

Some Poster
