ROADSTER

JAWA YEZDI  
MOTORCYCLES

**BORN  
OUT OF  
LINE**

Dear Riders,

Most bikes are built to fit in. The Roadster was built to stand out. At Yezdi, we've never followed the line. We've made our own. The Roadster doesn't just take you places. It takes you off-script, off-trend and unapologetically out of line.

## **INTRODUCING THE YEZDI ROADSTER 2025 BORN OUT OF LINE.**

Pure muscle, no fluff. Just made to cut through the noise, carve up the city and ride like following the line was never an option.

### **How It Crosses the Line.**

#### **Detachable Pillion Seat:**

Twin seat? Single seat? Your call. Switch between the two without hassle. The Roadster's pillion seat pops off without fuss, giving you a cleaner, meaner look when you want it.

#### **Multi-Functional Blinkers:**

Future forward blinkers that don't just signal, they double as your tail light. No clutter, no fuss, just a cleaner rear end and a design that looks sharp from every angle.

#### **350 Alpha 2 Engine:**

334cc liquid-cooled engine with power that kicks hard when you want speed, holds steady when you want control, and is built to take on every kind of road without breaking a sweat.

#### **New Decals:**

Bold lines. Bolder graphics. This is your personality in motion. One glance and they'll know this bike doesn't belong in the herd.

#### **Side-Arm Rear Hugger:**

Full attitude. The rear hugger sharpens the Roadster's stance and gives it that ready-to-attack look. It's not just styling, it's a statement.

#### **Wider 150-Section Rear Tyre:**

Extra width. Extra grip. Extra confidence. The beefier rear tyre locks you to the road, giving you better stability and control, making touring feel second nature.

#### **Wider Rear Fender:**

Whether it's rain, slush or a bad road day, it shields rider and pillion from the spray, so the ride stays cleaner and drier. And the bonus? It adds a chunkier, meaner, scout stance to the Roadster.

Every ride leaves a mark. The Roadster just makes sure it's permanent.
