CAMPUS LIFE DEPARTMENT

SUBMITTED TO

THE EXECUTIVE DIRECTOR

Date: 29.08.19

"The eye is the window to the world, at the same time, it is the window of the soul." - Shakespeare.

Millions of people are BLIND or going blind in the developing world and most of them can be cured. We have got God's gift of Vision, why not try to pass it on to somebody who doesn't have it? The number of people awaiting corneal transplant is outnumbering the available donor tissues. Corneal Transplantation is the only effective restoration for the replacement of human tissues in the eye. This is considered as a precious and possessed gift of sight for millions of people all over the world.

Keeping this in mind, the CAMPUS LIFE DEPARTMENT OF SRM TRICHY CAMPUS organized an Awareness Program on Eye Donation for all the Institutions within the Campus.

TRICHY SRM MEDICAL COLLEGE AND RESEARCH CENTER
SRM TRP ENGINEERING COLLEGE
TRICHY SRM ARTS AND SCIENCE COLLEGE
TRICHY SRM COLLEGE OF NURSING
SRM INSTITUTE OF HOTEL MANAGEMENT
TRICHY SRM ALLIED HEALTH SCIENCE

The program was started at 10 a.m., in Easwari Hall in the Campus. Dr. Antony Arokiadass Baskaran, Ophthalmologist, Joseph Eye Hospital, Trichy, special speaker for the morning two sessions and the afternoon session. Dr. P. Dinesh, Associate Professor, Trichy SRM Medical College Hospital and Research Center, and Dr. Infanta, Dr. Abinavi, CRRI, Trichy SRM Medical College.

The Campus Executive Director Dr. S. Ragupathy presided over the function, and the Deputy Director Dr. N. Balasubramanian felicitated. Dr. Baba, Professor and HOD of Ophthalmology Department, The Principals of all the Colleges in the Campus, the Vice Principals, The Executives of Hospital and all the Heads of the Department Staff and Students participated in this awareness program.

The Schedule is as follows:

Session – I (10:00 am to 11:00 am) - TRICHY SRM ARTS AND SCIENCE COLLEGE &

SRM HOTEL MANAGEMENT

Session- II (11:30 am to 12:30 pm) - TRICHY SRM ALLIED HEALTH SCIENCE & SRM TRICY COLLEGE OF NURSING

Session -III (2:00 to 3:00 pm) -TRICHY SRM MEDICAL COLLEGE HOSPITAL &RESEARCH CENTER

Session – IV (3:30 pm to 4:30 pm) – SRM TRP ENGINEERING COLLEGE

The important facts and information stressed upon:

Eyes may be donated only after death

1. Eyes must be removed within 4-6 hours after death, and the nearest eye bank should be informed immediately.
2. Eyes may be removed only by a trained doctor.
3. The eye bank Team will remove the eyes at the home of the deceased or at a hospital.
4. Eye removal takes only 10 to 15 minutes, is simple and does not lead to any disfigurement.
5. Please remember that only the transparent section of the eyes called cornea is taken out and not the full eye ball.
6. A small quantity of blood will be drawn to rule out communicable diseases.
7. The eyes can be pledged to any Eye Bank preferably the nearest one.
8. The identities of both the donor and the recipient remain confidential.
9. One pair of eyes gives vision to TWO corneal blind people
10. Who can donate and who cannot also was explained.

LESSONS LEARNT

What went on well

1. The morning session presentation was excellent.
2. Very crisp and neat.
3. The speaker was very emphatic and convincing.
4. Students raised questions and cleared their doubts(Fore noon)

Need for improvement

1. Chief guest's gift didn't reach on time. The gift was given after the program.
2. The students of Ophthalmology department need some extra practice
3. The Concerned Department has to be informed earlier regarding the schedule.
4. The arrival time of students must be regulated.

5. In the afternoon session the questions asked by the students were not upto the mark. (some asked very silly question/ not professional)

Students Team:

1. Mr. Manesh, Trichy SRM Arts and Science College
2. Mr. Abhisek, Trichy SRM Arts and Science College
3. Mr. Harish, Trichy SRM Arts and Science College
4. Mr. Harshavardhan, Trichy SRM Arts and Science College
5. Mr. Alwyn Bradman, Trichy SRM Arts and Science College
6. Miss. Guna Durga, Trichy SRM Arts and Science College
7. Miss. Sivakaiya, Trichy SRM Arts and Science College

REPORT ON POSTGRADUATE INTEGRATED SEMINAR ON “TRANSPLANTATION IMMUNOLOGY”

1.0. OVERVIEW

The Department of Microbiology, Trichy SRM Medical College Hospital and Research Centre, Tiruchirapalli organized Postgraduate integrated Seminar on “Transplantation Immunology” on **March 26th 2018**. A total of 29 teaching staff attended the seminar.

2.0. VENUE & TIME

The programme was arranged in the MEU- College Block, Conference Hall, Third Floor, Trichy SRM Medical College Hospital and Research Centre, Tiruchirapalli from 2 to 4 p.m. after getting formal permission from Dean of the institution.

3.0. STATUS OF PARTICIPANTS FOR THE DAY

The participants included were

1. Postgraduates of pre and para clinical departments (12 students)
2. Professor and Heads of Pre and para clinical departments
3. Professors, Assistant Professors and Tutors of Pre and para clinical departments and Junior residents of clinical departments.
4. Resource person from Nephrology department.

A letter for a request to permit the postgraduates for active participation was obtained from concerned HODs.

4.0. PROGRAMME

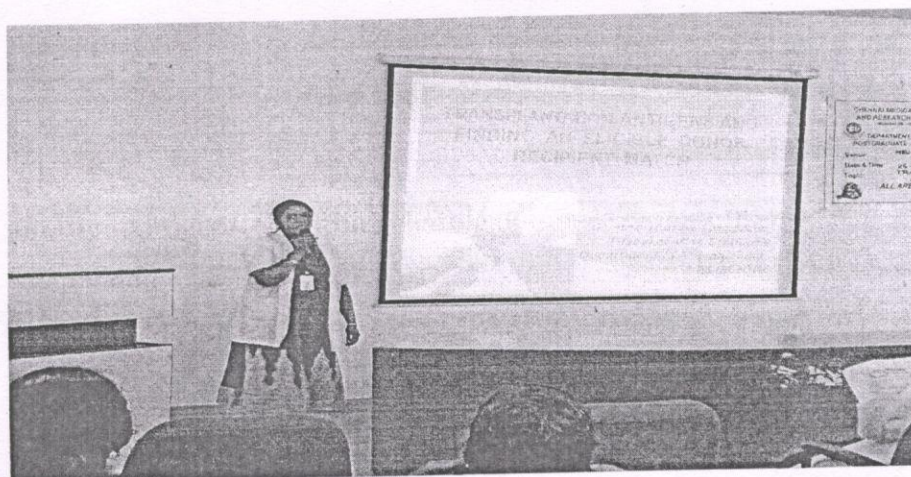

Dr. A. Uma, Professor and Head of Microbiology welcomed the gathering after a brief introduction on the topic.

4.1. DELIBERATIONS

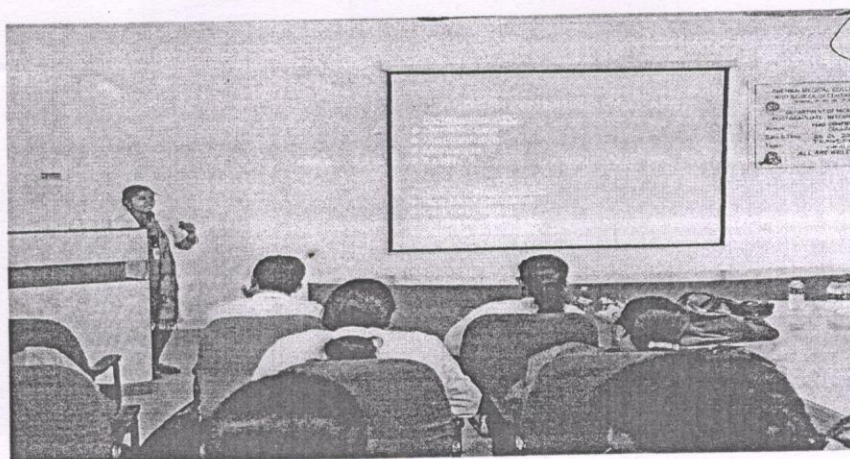

Title 1: Transplantation antigens & finding eligible donor- recipient match

The first deliberation was by **Dr. Saro thanga sangeetha**, I year postgraduate, Department of Microbiology. She highlighted and well explained about the types of grafts, mixed lymphocyte culture and tissue matching (mixed leukocyte reaction). At the end of her presentation she discussed the questionnaire related to HLA typing i.e relationship between patient and donor.

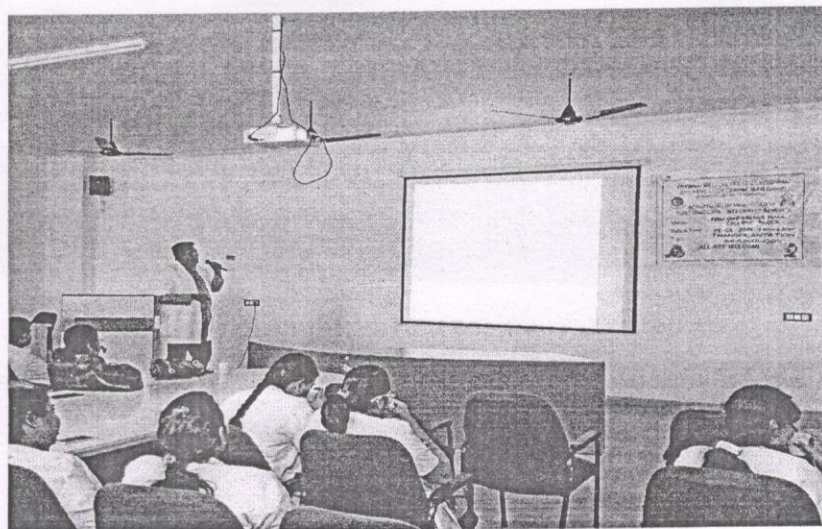

Title 2: Immunology of transplant rejection

This title was delivered by **Dr. S. Deepalatha**, II year postgraduate, Department of Microbiology. She described the process of graft acceptance and rejection. She elaborately explained the immunological process involved in the hyperacute, acute and chronic rejection of a kidney graft.

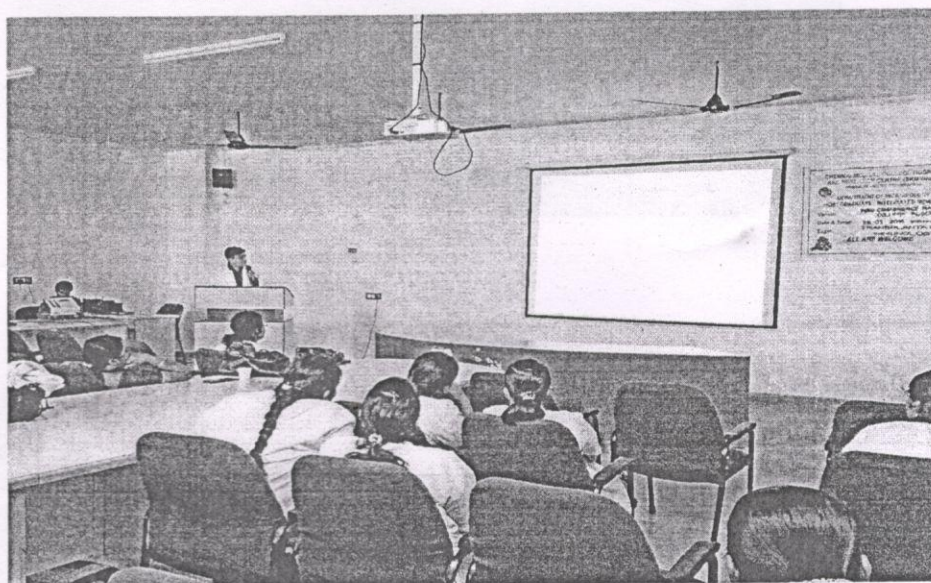

Title 3: Immunosuppressive drugs and future transplant therapies

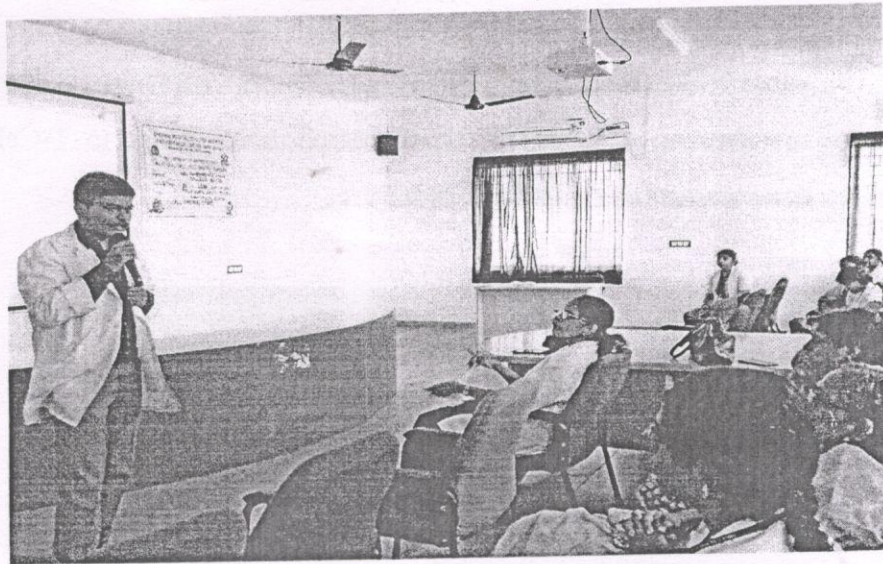

Dr.K. Vairavel Prakash, II year postgraduate student of Pharmacology explained the overall picture of mechanism of action of immunosuppressive drugs to T-Cell and put forth importance of the therapies for transplantation at future.

Title 4: Clinical aspects of transplantations

Dr. S.P. Subramanian, Assistant Professor of Nephrology presented case scenarios and questionnaire based studies elaborately interacting with the audience. He explained about donor selection based on HLA typing & relevant questions about transplantations and explained about the investigations related to donor and recipient. He highlighted the current standard of care and maintenance of immunosuppressant therapy.

This was followed by vote of thanks by **Dr. A. Uma**, Professor and Head of Microbiology department.
