TravClan - iOS Developer

About us:

We are a well funded B2B travel tech startup. We have raised ~USD 5mn Pre Series A investment round despite the global pandemic and are looking to grow our Product & Tech team. We are growing rapidly. We have crossed our pre-covid numbers. We want to become the world's biggest B2B travel company by enabling over million travel agents, travel entrepreneurs and influencers to grow their business, and achieving Annualized GMV of $25 billion by 2026.

Profile Overview:

iOS Developer at TravClan is a key role which ensures delivering the best experience to our customers on iOS. The engineers in the iOS team will be part of the Mobile Team. The team has already built an Android app rated 4.7+ on Google Play and is used by thousands of Travel Entrepreneurs in India and we want to extend the same experience for them on iOS. This role will involve immense learning of Travel Technology and Ecommerce concepts providing amazing growth opportunities while working with some of the best engineers in the industry. Some of the Products that already exist on our platform which we will bring to the iOS App are Flight bookings, Wallet, Hotel bookings, SaaS Website Builder, Marketing Material Builder, News.

Growth Prospects:

- **Annual CTC - ₹12 to 18 LPA**
- **ESOPs** + promotions + aggressive growth prospects (read further) !
