A FOOTBALL CARNIVAL

Set against Kerala's golden sun and sandy backwaters, the KBFC Coco Cup 2026 is a three-day celebration. Teams travel together with their coaches to compete, learn, and experience the game in one of India's true football heartlands.

Beneath the palm trees and along the coast, young players will face serious competition across advanced and elite levels — testing themselves, finding their level, and pushing their development forward.

More than just a tournament, Coco Cup is part of a broader pathway: a chance for teams to grow together, measure themselves against strong opponents, and open doors to future opportunities, including qualification to international tournaments.
