

# Person-to-Person

Nearly 3,700 patients were supported through PTP during the last Financial Year (April 2025 to March 2026).

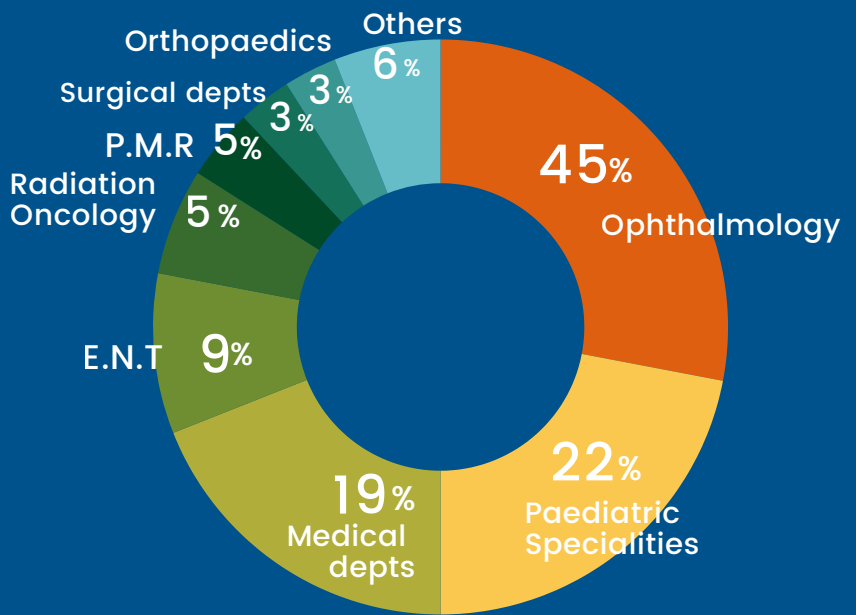

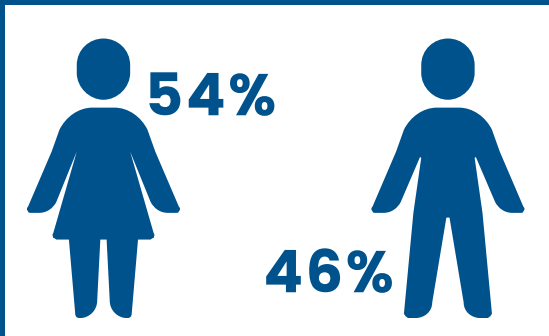

**Support from friends like you makes it possible to care for patients in moments of greatest need.**

Pallavi (*name changed*), from Ranipet district, has been a patient at CMC Vellore since she was diagnosed with an auto-immune disorder nearly two decades ago. A single mother and with limited family income, she fell seriously ill recently. Admitted under the Department of Medicine, she was diagnosed with pneumonia. With antibiotics and supportive care, she recovered well. Concerned about the costs of hospitalisation, her parents were relieved when doctors subsidised her treatment through CMC's charitable funds.

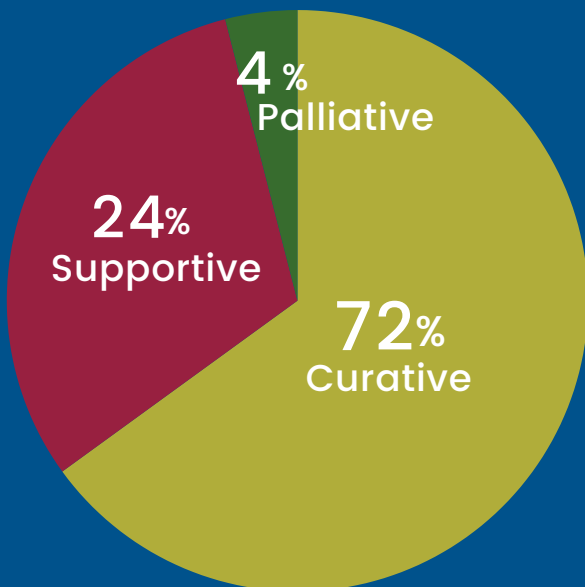

## PTP Annual Report (April 2025-March 2026)

# 3,691
