**CERTIFICATE OF APPRECIATION**

**Infinite IT Solutions Pvt. Ltd. (IITS)** demonstrated their capabilities to automate as Pilot Project for Gram Panchayat Elections (Jul-Aug 2015) for Baramati Taluka, Pune District. The **State Election Commission, Maharashtra** had entrusted an assignment of **Automation of General Election Program (Oct-Nov 2016) of 32 Local Bodies** (29 Municipal Councils and 3 Nagar Panchayats) to IITS.

IITS implemented their [www.e-elect.in](http://www.e-elect.in) software on a Software-as-a-Service (SaaS) model consisting of two integrated applications viz. 1) Online Nomination System (ONS) for Candidates and 2) Automation of Election Program (AEP) for Returning Officers. This software captures data of affidavit and nomination forms from candidates with appropriate registration process, generates the said documents and publishes the information for citizens. It also brings simplification in the processes of Returning Officers, by covering various phases of election process such as Nomination Form Acceptance, Scrutiny, Withdrawal, Symbol Allocation and Publishing List of Contesting Candidates, Polling and Counting.

IITS also developed and hosted a website of our International Conference on "Local Self-government Elections" which was held in Oct 2018.

We appreciate the efforts taken by IITS in the field of automation of election processes and developing of website. We wish them all the success in future.
