Forex Business – Risk Management

Corporate & Retail Business : Sale & Encashment of Currency Notes, Prepaid Cards

- As corporate require a minimum processing time, we are exposed to Credit risk which is mitigated by Customer Acceptance Policy and Credit Policy where customer is profiled as per their business type, market standing, financial strength and limits are fixed and monitored with system level controls
- **For Foreign Currency** – Currency Balances which are maintained in branches for Sale purpose, the risk arising out of volatility is managed by taking appropriate hedge through Future contract
- **For Prepaid Cards Sales** – Sale is hedged with Card principals and the risk of Exchange rate volatility is marginal during banking hours. For transactions after banking hours orders are taken in advance for taking cover or a holiday margin is charged to minimize the risk due to currency volatility.

Outward Remittance Business : Permissible outward remittance transactions under LRS

- There is minimal risk as all Outward remittance transactions are booked near real-time with the bank treasury.
- Depreciation of Currency has some business impact as there is postponement of transactions by customers during periods of extreme volatility.

Compliance:

- Being in the regulated space, the company has Concurrent Audits done by Independent Auditors, Training & Development for employees, system level controls, strong AML policy framework monitored by Principal Officer and the Internal Compliance Committee.

Other Risks:

- Are Covered through Special package policy covering transit risk, fidelity risk, Fire & Accident etc. D&O Policy, Marine policy of EXIM, commercial general liability policy, Cyber Insurance, Personal Liability & other employee welfare policy have been taken to minimize risk at various levels.
