HEAD OF THE DEPARTMENT MESSAGE

This Rapid Review and Revision program 2025 includes consolidation of various topics in the field of prosthodontics. Based on the need of the hour, appropriate modifications have been made to this program. We would like to thank all the institutional faculty members for their constructive feedback and support in refining the course. We have been successful in stepping into the 13th Rapid Review and Revision Course, which is designed to educate the postgraduates in the technical concepts with both theory and clinical procedures.

THE COURSE OBJECTIVES ARE AS FOLLOWS

- Teach them essential and core concepts in prosthetic dentistry through didactic lectures.
- Enable a student to understand prosthodontic concepts and prepare them to appear for their final university examinations.
- Aid them in acquiring knowledge of the most recent advancements.
