अहवाल

राजे रामराव महाविद्यालयाच्या हिंदी विभाग व अंतर्गत गुणवत्ता हमी कक्ष यांच्या संयुक्त विद्यमाने गुरुवार, दि.६ एप्रिल, २०२३ रोजी 'डिजिटल पत्रकारिता' प्रमाणपत्र कोर्स अंतर्गत एकदिवसीय वेबिनारचे आयोजन करण्यात आले होते. यावेळी प्रमुख मार्गदर्शक म्हणून दैनिक लोकसत्ता डिजिटल माध्यम विभागाचे (इंडियन एक्सप्रेस माध्यम समूह) उपसंपादक श्री.रवींद्र माने उपस्थित होते.

'डिजिटल पत्रकारिता: स्वरूप, मूल्ये व आव्हाने' यावर बोलताना ते म्हणाले, 'आज पत्रकारिता हा एक व्यवसाय जरी असला तरीही त्याची काही मूल्ये आहेत. भारतीय लोकशाही व संविधानाच्या रक्षणासाठी मूल्याधारित पत्रकारिता गरजेची आहे.' या वेबिनारचे अध्यक्ष प्राचार्य प्रा. डॉ. सुरेश पाटील यावेळी बोलताना म्हणाले, 'आज पत्रकारिता हे व्यवसायाचे माध्यम जरी बनले असले तरी ज्या मूल्यांना केंद्रीभूत मानून पत्रकारिता सुरू झाली त्या मूल्यांशी पत्रकारितेने फारकत घेतल्यास भारतीय लोकशाहीचा गाभाच नष्ट होईल.' यावेळी अंतर्गत गुणवत्ता हमी कक्षाचे संचालक डॉ. शिवाजी कुलाळ यांनी विद्यार्थ्यांशी संवाद साधताना असे प्रतिपादन केले की, 'पत्रकारिता समाजाला माहितीचे आदान-प्रदान करित असते. त्या माहितीवर समाजाचा पूर्ण विश्वास असतो. त्यामुळे पत्रकारितेला नैतिक अधिष्ठान असावे.'

या वेबिनारचे स्वागत व प्रास्ताविक हिंदी विभागप्रमुख प्रा.एच.डी.टोंगरे यांनी केले. सूत्रसंचालन समन्वयक डॉ. सतीशकुमार पडोळकर यांनी केले. या वेबिनारप्रसंगी प्रा.प्रकाश भाळी, प्रा.शिवाचंद भाळी, प्रा. मुलाणी, प्रा.रेश्मा लवटे आदींसह 'डिजिटल पत्रकारिता' प्रमाणपत्र कोर्ससाठी प्रवेशित महाविद्यालयातील बहुसंख्य विद्यार्थी उपस्थित होते.

विषय: "डिजिटल पत्रकारिता: स्वरूप, प्रक्रिया व रोजगाराच्या संधी"

अहवाल

गुरुवार, दि. 02 मार्च 2023 रोजी राजे रामराव महाविद्यालय जत, अग्रणी महाविद्यालय योजना, हिंदी विभाग, अंतर्गत गुणवत्ता हमी कक्ष व हॅलो महाराष्ट्र न्यूज चॅनल यांच्या संयुक्त विद्यमाने डिजिटल पत्रकारिता: स्वरूप, प्रक्रिया व रोजगाराच्या संधी या विषयावर एक दिवसीय कार्यशाळा संपन्न झाली. या कार्यशाळेसाठी प्रमुख मार्गदर्शक म्हणून शिक्षणमहर्षी बापूजी साळुंखे महाविद्यालय कराड येथील प्रा. स्नेहल वरेकर या उपस्थित होत्या.

डिजिटल पत्रकारिता: स्वरूप, प्रक्रिया व डिजिटल पत्रकारिता क्षेत्रात असणाऱ्या रोजगाराच्या संधी याविषयी बोलताना प्राध्यापक स्नेहल वरेकर म्हणाल्या, "पत्रकारितेचे खऱ्या अर्थाने लोकशाहीकरण हे डिजिटल पत्रकारितेचे मुळे झाले. डिजिटल पत्रकारिता ही आजच्या युगाचे एक प्रभावी माध्यम आहे. डिजिटल पत्रकारितेने नागरिक पत्रकारितेला बळ दिले. या पत्रकारितेचे मुळे प्रत्येक व्यक्ती हा एक जागरूक भारतीय नागरिक बनून समाजामध्ये विधायक बदल घडवू शकतो." या कार्यशाळेत विद्यार्थ्यांना मार्गदर्शन करताना त्यांनी पत्रकारिता म्हणजे काय?, पत्रकारितेमधील विविध विभाग, वितरण व्यवस्था, संपादकीय रचना, बातमी कशी लिहिली जाते, बातमी संपादित करण्याची प्रक्रिया, बदलत्या काळानुसार पत्रकारितेत झालेले बदल, डिजिटल पत्रकारितेचा उदय, डिजिटल पत्रकारिता म्हणजे काय?, डिजिटल पत्रकारिता विस्ताराची कारणे, डिजिटल पत्रकारितेमध्ये कोणकोणत्या बाबी येऊ शकतात, डिजिटल पत्रकारितेचे मूल, डिजिटल पत्रकारितेमध्ये असणारे संभाव्य धोके, ट्रोलिंग, ब्लॉग राइटिंग, डिजिटल पत्रकारितेनंतरच्या जाहिरात क्षेत्रातील संधी आदि विषयावर विद्यार्थ्यांना सांगोपांग असे मार्गदर्शन केले. त्यानंतर त्यांनी डिजिटल पत्रकारितेचे विद्यार्थ्यांना आकलन कशाप्रकारे झाले आहे याविषयी ऑनलाईन फीडबॅक घेतला.

कार्यशाळेचे अध्यक्ष म्हणून राजे रामराव महाविद्यालयाचे प्राचार्य डॉ. सुरेश पाटील हे उपस्थित होते. यावेळी आपले मनोगत व्यक्त करताना ते म्हणाले, "पत्रकारिता हा लोकशाहीचा एक महत्त्वपूर्ण स्तंभ मानला जातो. पत्रकारितेचे साधन हे समाज परिवर्तनाचे महत्त्वाचे साधन आहे. पत्रकारिता ही जनतेचा आवाज राज्यकर्त्यांस समोर पोहोचवण्याचे सशक्त माध्यम आहे. त्याचबरोबर आधुनिक तंत्रज्ञानाच्या युगात युवकांसाठी ते रोजगाराचेही एक महत्त्वपूर्ण माध्यम बनले आहे. त्यामुळे महाविद्यालयातील जास्तीत जास्त विद्यार्थ्यांनी महाविद्यालयामार्फत चालवला जाणारा 'डिजिटल पत्रकारिता' हा सर्टिफिकेट कोर्स पूर्ण करावा."

यावेळी हॅलो महाराष्ट्र न्यूज चॅनेल कराड व हिंदी विभाग राजे रामराव महाविद्यालय जत यांच्यामध्ये झालेल्या सामंजस्य कराराचे हस्तांतरण प्रमुख पाहुण्यांच्या हस्ते महाविद्यालयाकडे करण्यात आले. या कराराद्वारे हॅलो महाराष्ट्र न्यूज चॅनेल, कराड राजे रामराव महाविद्यालयातील विद्यार्थ्यांना पत्रकारितेचे प्रशिक्षण देऊन पत्रकारिता क्षेत्रात रोजगाराच्या संधी निर्माण करण्याचा प्रयत्न करेल.

या कार्यशाळेसाठी अंतर्गत गुणवत्ता हमी कक्ष समन्वयक डॉ. शिवाजी कुलाळ, डॉ. भीमशंकर डहाळके, प्रा. रामदास बनसोडे, डॉ. अशोक बोगुलवार, प्रा. तुकाराम सन्नके, प्रा. राहुल कांबळे, प्रा. अनिल लोखंडे, प्रा. अभयकुमार पाटील व विद्यार्थी मोट्या संख्येने उपस्थित होते.

या कार्यशाळेचे सूत्रसंचालन कुमारी भाग्यलक्ष्मी कंगोणे, प्रास्ताविक डिजिटल जर्नालिजम सर्टिफिकेट कोर्स समन्वयक डॉ. सतीशकुमार पडोळकर यांनी तर आभार हिंदी विभाग प्रमुख तथा अग्रणी महाविद्यालय योजनेचे समन्वयक प्रा. एच.डी.टोंगारे यांनी मानले.

Letter of Thanks

Respected Sir,

We are thankful for your gracious presence a Resource Person for workshop on "Research Methodology: Start up and Innovations" on 4th Feb. 2023 at 11:00am organized by Research & Innovation Cell, Science Association, Student Development Cell and IQAC.

We expect the same kind of co-operation from you in future.

Thanking you in anticipation.

Research Expertise

- Designing and device fabrication using supramolecular dyad systems, quantum-dots-dye hybrid systems, carbon nanostructures composites, cadmium chalcogenides thin films for solar energy harvesting.
- Photocatalytic studies of doped/bare metal oxide nanoparticles or supported metal nanoparticles for chemical transformations include oxidation, reduction, condensation, degradation reactions.
- Nanocomposites between carbon nanotubes (CNTs) or graphene precursors with metal oxides nanoparticles as well as doped oxides for antibacterial or bio-sensing studies.

Research Skills

1. Synthesis of semiconducting or metal nanoparticles like TiO₂, ZnO, CdS quantum dots, CdSe quantum dots, Silver/Copper Nanoparticles and their nanocomposites and their designing in the different solar & biosensing devices.
2. Deposition of TiO₂, ZnO, etc films by doctor blading, spin coating, spray pyrolysis and screen printing method.
3. Electrochemistry, Cyclic voltammetry (CV) growth, potentiostats-growth, constant-current growth, differential pulse voltammogram (DPV) for determination of the redox properties of materials (Calculation of HOMO, LUMO and band gap energy of various monomers/ oligomers, different dyes). Spectroelectrochemistry.
4. Diffuse-Reflectance UV-Visible Spectrophotometry for band-gap evaluation of materials.
5. Determination of the quantity of dye loading on various semiconductor surfaces by UV-Vis Spectroscopy.
6. Fabrication and characterization of Multichromophoric dye-sensitized solar cells based on supramolecular dyads. Characterization of various supramolecular dyad/triad based dye sensitized solar cells,
7. Designing and characterization of hybrid devices using Quantum Dots and various dyes as an chromospheres molecule.
8. Fabrication and characterization of hybrid organic-inorganic materials for solar-to-electrical Energy Conversion.
9. Well expertise with interpretation of structural (XRD, Raman), Morphological (HRTEM, FESEM, etc) and Compositional/functional tools (FTIR, XPS, EDAX).
10. Handling of Solar Simulator for I-V and IPCE measurements.

Research Capabilities

1. Fabrication and Characterization of Photovoltaic Cells

Fabrication and Characterization various solar cells such as Solid-State Dye-Sensitized Solar Cells (DSSCs), Liquid-DSSCs, Supramolecular Self-assembled Multichromophoric solar cells, Dye-QDs Solar Cells, Thin-Film based Inorganic-Organic hybrid Perovskite solar cells. Measurement of Current-Voltage (JV) curve of these photovoltaic devices by a solar simulator.

IPCE (Incident Photon to Current Efficiency) measurement for sensitization effect of the materials within solar cells. conductivity measurement by four-probe technique.

2. Electrochemical tools

Electrochemistry and Spectroelectrochemistry, Photo-electrochemistry, Cyclic voltammetry (CV for calculation of redox properties of materials), Chronoamperometry and potentiostats growth, differential pulse voltammogram (DPV), electrochemical polymerization and photo-electrochemical polymerization, Electrochemical Impedance spectroscopy (EIS).

3. Spectroscopy and diffraction tools

UV-Vis-NIR & Diffuse Reflectance Spectroscopy, Fluorescence spectroscopy (steady state), Time –correlated single-photon-counting (TCSPC), time–resolved fluorescence spectroscopy, FT-IR and Raman spectroscopy, XRD, X-ray Photoelectron Spectroscopy (XPS), Electron Paramagnetic Resonance (EPR) techniques and NMR.

4. Other Techniques

Thermogravimetric Analysis (TGA), Thin liquid chromatography (TLC), Thickness measurement by surface-profilometer, Various coating such as chemical vapor deposition, metal evaporation, spin coating and spray pyrolysis, BET, etc.

Brief Summary of the Workshop

In order to acquaint teachers with the research methodology and the procedure of research article writing, the staff academy, research and innovation cell and Internal Quality Assurance Cell (IQAC) of Raje Ramrao Mahavidyalaya jointly organized one day workshop on “Research Methodology: Research Article Writing” on 04th Feb., 2023 (Saturday). The present activity aimed at assisting all college teachers to know all essentials and details of research methodology. This workshop also aimed at helping teacher to write research articles.

In the present activity, teacher were guided to know about the method sections, writing research methodology, methodological approach, data collection methods and justification of methodological choices.

Total 48 teaching faculty participated in the present activity. It was inaugurated at 11:00 am with the inspiring message of Sanstha Prayer. For the current activity, Hon’ble Prof. Dr. Suresh S. Patil, the Principal of Raje Ramrao Mahavidyalaya, presided over the session. Asst Prof Banasode presented welcome note. The resource person Hon’ble Prof. (Dr.) Sagar Delekar delivered an informative talk. Hon’ble principal of Raje Ramrao Mahavidyalaya, delivered presidential address with a special emphasis on the preparation of attainment mapping of COs and POs. Dr. S. R. Kulal proposed vote of thanks.

In the question-answer session, multiple doubts of teachers were discussed and solved.

Outcomes of the Workshop

The present workshop entitled “Research Methodology: Research Article Writing” on 04th Feb., 2023 (Saturday) helped teachers to know all essentials and details of research methodology. The workshop helped to encourage and to write research articles.

In the present activity, teacher were guided to know about the method sections, writing research methodology, methodological approach, data collection methods and justification of methodological choices.

The workshop also assisted to know the importance of research in the career writing. The teachers learnt various research methods. Teachers were acquainted with various methods as well as approaches.

Teachers also learnt various parts of the research methodology to ensure research is organized, credible and impactful.

CAREER OBJECTIVE

Present objective is to establish a group and alliances to work at the interface of chemistry, nanoscience, and biotechnology. To utilize knowledge, analytical skills, and experience to explore multidisciplinary research to create novel materials, advance technologies, and provide technical support to groups with common interests.

HIGHLIGHTS

Career motivated, good adaptability, a self-starter, and a good team player with a keen eye for details. Seventeen years of multidisciplinary research experience. Good experience of working on academic and industrial research projects. Hands-on experiences with modern material characterization and analytical tools. Developed coupled TGA-thermo-Raman spectroscopy for *in situ* monitoring of the thermal processes. A simple green chemistry approach of ultrasound assisted coating of thermolabile substrate (paper) with metal oxide nanoparticles (ZnO, TiO₂) without the aid of binders is also developed (Patent pending). Developed a green and energy economic process to coat and/or impregnate nanomaterials into wood imparting it antibacterial, anti-termite and fire retardancy property (Patent pending). Presently working on dye/quantum dots sensitized Solar Cells as clean alternative energy generation and storage devices. Capable of independent research and also have experience of supervising Ph.D. and master students projects. Have excellent English language skills to compile scientific proposals and research papers. Sound knowledge of computer applications in research activities. **Present research *h-index* is 33 and *i-10 index* is 91 with 137 scientific publications and 5 under review/under preparation. Present citation index is 3655 (times cited).**

RESEARCH/ADMINISTRATIVE EXPERIENCE

1. April 2016-present, **Director, International Affairs Cell**, Shivaji University, Kolhapur, Maharashtra, India
2. Sept 2014-present, **Professor of Analytical Chemistry**, Department of Chemistry, Shivaji University, Kolhapur, Maharashtra, India.
3. Oct 2016-Dec 2021, **Director, Intellectual Property Rights (IPR)**, Shivaji University, Kolhapur, Maharashtra, India
4. March 2016-present, **Task Force Member** representing Shivaji University, Kolhapur, **Globalization of Higher Education**, Govt. of Maharashtra, India.
5. June 2013-Sept 2014, **Co-ordinator, Intellectual Property Rights (IPR)**, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, Maharashtra, India
 - ❖ Creating awareness about IPR among the faculties and students of the University and affiliated colleges of the University through awareness camps.
 - ❖ Encourage quality multidisciplinary research by inculcating collaborative research projects.
6. Sept 2009-Sept 2014, **Assistant Professor**, Department of Nanotechnology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, Maharashtra, India
 - ❖ Green Nanotechnology for various technological applications (e.g. Develop Green Solar Cells and Green Gas Sensors, Nanobiotechnology, Nano in Agriculture).

7. Sept 2008-Sept 2009, **Brain Korea 21 Fellow**, Department of Chemistry, Hanyang University, Sung-Dong-Ku, Haengdang-dong 17, Seoul, Korea
 - ❖ Design, fabrication and investigating the solar-to-electrical power conversion efficiency of dye/quantum dots sensitized solar cells.
 - ❖ Developing novel synthetic approaches for synthesis of nanostructured solar cell electrodes and materials for improved efficiency and performance.
 - ❖ Nanogreen Solar Cell: Exploring “Green chemistry” approach in designing and fabrication of solar cell
8. April 2008-Sept 2008, **Research Associate**, Department of Chemistry, Hanyang University, Sung-Dong-Ku, Haengdang-dong 17, Seoul, Korea.
 - ❖ ZnO based dye sensitized solar cells and its hybrid combination for improved conversion efficiency.
9. May 2007-March 2008, **Postdoctoral Research Scholar**, Nevada Nanotechnology Center, University of Nevada, Las Vegas, USA.
 - ❖ Setting Nanomaterials Chemical Synthesis Laboratory
 - ❖ Electrochemical process for synthesizing porous alumina templates and growing metal/semiconducting materials (ZnO, CdTe) into the porous alumina templates.
 - ❖ Developed a green and energy economic power ultrasound based treatment process to coat and/or impregnate nanomaterials into wood imparting it antibacterial, anti-termite and fire retardancy property. This work has potential significance considering the increased emphasis on “Green” chemistry and the fact that wood is most reliable and widely used construction material in the US.
10. Jan. 2004-Apr. 2007, **Postdoctoral Research Associate**, Dept. of Chemistry, National Tsing Hua University, Taiwan. Green chemistry and biomimetic synthesis of nanoparticles for analytical and biomedical applications.
 - ❖ Biological synthesis of metal (silver and gold nanoparticles, nanoprisms and nanorods) and magnetic nanoparticles intended for analytical and biomedical applications (disease diagnosis and hyperthermia of cancer cells). Surface-modification of magnetic nanoparticles with semiconductor based photocatalyst and adsorbents for dechlorination of wastewater and analytical separation, respectively.
 - ❖ Design and development of photoreactor (capable of working day and night) and semiconductor based photocatalysts for CO₂ reduction (artificial photosynthesis).
 - ❖ Developed for the first time a simple green chemistry approach of ultrasound assisted coating of paper/cotton fibers with metal (silver) and metal oxide nanoparticles (ZnO, TiO₂) without the aid of binders (Patent pending). Nanoscale coatings or thin films of ZnO and TiO₂ are viewed with great interest for their potential applications as substrates for functional coatings, optical communications (security-papers), portable energy, sensors, and photocatalytic wallpaper with antibacterial activity. Paper and cotton fibers coated with ZnO, TiO₂, and silver nanoparticles were found to possess antibacterial activity and might find potential applications in suites for 21st century to combat bioterrorism.
 - ❖ Use of combined effect of supercritical CO₂ and sonication in improved photoresist stripping process.
 - ❖ Handled and resolved the analytical problem put forth by Taiwan salt company on investigation of the contaminants in salt obtained as byproduct during polymer synthesis process.
11. Sept. 2000-Dec. 2003, **Ph. D. Research Scholar**, Dept. of Chemistry, National Tsing Hua University, Taiwan.
 - ❖ Synthesis of metal and metal oxide nanoparticles of industrial and technological importance, their characterization using analytical and material characterization techniques.
 - ❖ *In situ* monitoring of thermal processes during the synthesis of metal oxide nanoparticles using coupled TGA-thermo-Raman spectroscopy and thermo-TOF-SIMS.
 - ❖ Processing of CNTs and synthesis of metal nanoparticles in supercritical water.
 - ❖ Synthesis and processing of CNTs, protein-CNT interactions, and prevention of protein aggregation. The role of CNTs in preventing TFE induced aggregation of protein (h-FGF) was investigated with the intention of developing artificial molecular chaperones. This has potential implications against amyloid diseases and in nanoparticle-based drug design.
 - ❖ Separation and analysis of carbohydrates and proteins from seeds obtained at different maturation stages using electrospray ionization (ESI-MS) and MALDI-TOF mass spectrometry.
 - ❖ ESI-MS based methodology for analysis of carbohydrates. Using alkali metal salts for stable adduct ion formation. Effect of acidic, basic, and neutral pH of the sample on ionization and detection was also investigated.
 - ❖ Contributed in development of analytical methodologies using chemical ionization GC-MS (introduced novel tetrahydrofuran and furan as new CI reagents).
 - ❖ Developed thermogravimetric analysis based simple method for estimation of stickiness in raw unprocessed cotton used in textile mills to get first hand information of the quality of cotton.

12. Oct. 1998-Aug. 2000, **Research Assistant**, Dept. of Chemistry, National Tsing Hua University, Taiwan.
 - ❖ Monitoring of structural, compositional changes, and phase transformations using thermo-Raman spectroscopy. Further, simultaneous measurement of electrical properties and structural information was also successfully achieved.
 - ❖ Investigated phase transition and dielectric properties of pure and doped BaTiO₃ having potentials applications in DRAM.
 - ❖ Investigated thermal and laser induced structural transformations in MoO₃ using thermo-Raman spectroscopy.
 - ❖ Investigated *in situ* monitoring of structural, compositional changes, phase transformations and dielectric properties of different sodium phosphate salts in dynamic thermal process using thermo-Raman spectroscopy.
13. Jun. 1997-May 1998, **M. Sc. projects** under the guidance of Dr. D. G. Naik in Agarkar Research Institute, Pune, India.
 - ❖ Synthesis and characterization of martius yellow and its derivatives.
 - ❖ Developed analytical method for quantitative analysis of dyes in effluent water. This work was supported by Dia-ichi Karkaria Chemical Industry Ltd., Pune, India.
14. Jan. 1996-May 1996, **Chemist in Central Pigment Testing Laboratory (CPTL)** of Sudarshan Pigments and Chemical Industry Ltd., Pune, India.
 - ❖ Work involved analysis and testing of physical and photochromic properties of pigments used in oil paints, textiles, plastics, rubber, oil bond, distempers etc.

EXPERIMENTAL TECHNIQUES /INSTRUMENTS HANDLED

- ❖ Ultraviolet-vis spectrophotometer (Hitachi U-3010, MeterTech T6), UV-vis/NIR (Jasco V-570)
- ❖ Photoluminescence Spectroscopy, Fluorescence Spectroscopy (Hitachi F-2500), Circular Dichroism (CD) (JASCO)
- ❖ Infrared Spectroscopy (FTIR- Bomem Hartmann and ATR-FTIR-Perkin Elmer)

EDUCATION

- ❖ 2015, **L.L.M. (Business Law)**- pursued since 2014 and **completed successfully with special interest in Intellectual Property Rights (IPR).**
- ❖ 2013, **L.L.B. (First Class)**, pursued since 2010 to explore the field of **Patents and Intellectual Property Rights (IPR)** as core interest. Successfully completed L.L.B Final.

- ❖ 2003, **Ph.D.**, Department of Chemistry, National Tsing Hua University, Hsinchu, Taiwan. Thesis entitled “**Synthesis, characterization, and technological applications of carbon nanotubes and metal oxide nanomaterials.**” (Advisor: Prof. Y. C. Ling)
- ❖ 1998, **M. Sc. Chemistry (First Class)**, Department of Chemistry, University of Pune, Maharashtra, Pune, India.
- ❖ 1996, **Post Graduate Diploma in Industrial & Analytical Chemistry, (First Class)** S.P.College, University of Pune, Maharashtra, Pune, India.
- ❖ 1996, **B.Sc., Botany (First)**, Department of Botany, B. G. College, University of Pune, Maharashtra, Pune, India.
- ❖ 1995, **B.Sc., Chemistry (Distinction)**, Department of Chemistry, B. G. College, University of Pune, Maharashtra, Pune, India.

TEACHING EXPERIENCE

- ❖ Professor, Department of Chemistry, Shivaji University, Kolhapur (Sept 2014- present)
- ❖ Assistant Professor, Department of Nanotechnology, Dr. B.A.M.U., Aurangabad (Sept 2009- Sept 2014).
- ❖ Contributory teaching, Department of Chemistry, Dr. B.A.M.U., Aurangabad (Sept. 2009- Sept 2014).
- ❖ Lecturer of Chemistry, YM College, Bharati Vidyapeeth, Pune, India (Jun. 1998-Sept. 1998)
- ❖ Teaching assistant, National Tsing Hua University (Sep. 2002-Jun. 2003).
- ❖ Experience of teaching in academic coaching classes (part time since 1989-1995).

COMPUTER SKILLS

- ❖ Operating System: DOS, Windows, and Linux.
- ❖ Software: Basic programming, graphics, and most of the chemistry related softwares.

AWARD/HONOURS

Outcomes of workshop on "Intellectual Property Rights-Copyright and Trademark"

1. Understanding of Copyright and Trademark Concepts: Participants will gain a clear understanding of the fundamental concepts of copyright and trademark, including what each protects, how they differ, and the legal frameworks governing them.
2. Awareness of Intellectual Property Importance: The workshop can highlight the importance of intellectual property in fostering innovation, creativity, and economic growth. Participants will recognize the significance of protecting their intellectual creations.
3. Knowledge of Legal Frameworks: Participants will become familiar with the legal frameworks and regulations governing copyright and trademark at national and international levels. This includes an understanding of the relevant laws, rights, and responsibilities.
4. Identification and Protection of Creative Works: Attendees will learn how to identify and protect their creative works through copyright. This includes understanding the criteria for copyright protection, the registration process, and the duration of copyright.
5. Trademark Registration Process: For trademarks, participants will gain insights into the process of registering trademarks, the importance of distinctive marks, and the role of trademarks in branding and market differentiation.
6. Infringement and Enforcement: Participants will understand the concept of infringement in both copyright and trademark law. The workshop can provide guidance on how to enforce rights and address potential violations through legal means.
7. Role of Intellectual Property in Business: Participants will grasp the role of intellectual property in business strategy and competitiveness. This includes how businesses can use intellectual property to create value, attract investors, and gain a competitive edge.

2. General Information:

Herbal medicine is the use of medicinal plants for prevention and treatment of diseases: it ranges from traditional and popular medicines of every country to the use of standardized and triturated herbal extracts. Generally cultural rootedness enduring and widespread use in a Traditional Medical System may indicate safety, but not efficacy of treatments, especially in herbal medicine where tradition is almost completely based on remedies containing active principles at very low and ultra low concentrations, or relying on magical-energetic principles.

Aims and objectives of the Seminar:

Herbal medicine has its origins in ancient cultures. It involves the medicinal use of plants to treat disease and enhance general health and wellbeing. Some herbs have potent (powerful) ingredients and should be taken with the same level of caution as pharmaceutical medications. In fact, many pharmaceutical medications are based on man-made versions of naturally occurring compounds found in plants. For instance, the heart medicine digitalis was derived from the foxglove plant.

Herbal medicines contain active ingredients. The active ingredients of many herbal preparations are as yet unknown. Some pharmaceutical medications are based on a single active ingredient derived from a plant source. Practitioners of herbal medicine believe that an active ingredient can lose its impact or become less safe if used in isolation from the rest of the plant. For instance, salicylic acid is found in the plant meadowsweet and is used to make aspirin. Aspirin can cause the lining of the stomach to bleed, but meadowsweet naturally contains other compounds that prevent irritation from salicylic acid. According to herbal medicine practitioners, the effect of the whole plant is greater than its parts. Critics argue that the nature of herbal medicine makes it difficult to give a measured dose of an active ingredient.

Description about the Program:

Skill Enhancement and Value Added Courses and IQAC, Raje Ramrao Mahavidyalaya, Jath jointly organized One Day Seminar on **“Herbal Medicine Today’s Need”** on Wednesday, 23rd Nov. 2022.

Total 42 participants registered for the seminar. The seminar was inaugurated at 11:00 am. For the inaugural function, Hon’ble Prof. (Dr.) Suresh S. Patil, the Principal of Raje Ramrao Mahavidyalaya, presided over the session. Ms. P. R. Mali, M. Sc. II student, presented welcome note. Ms. G. S. Kulkarni, M. Sc. II student, introduced the resource persons Dr. Sachin Patil and Prof. (Dr.) V. B. Shimpale, “Herbal Medicine Today’s Need”

Hon’ble Prof. (Dr.) Suresh S. Patil, the Principal of Raje Ramrao Mahavidyalaya, delivered presidential address with a special emphasis on the growth and contribution of Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for the development of society and also the importance about Herbal Medicine Today’s Need. At the end Mr. D. V. Sale, M. Sc. II student, proposed vote of thanks.

General Information:

The many industries discover, develops, produces, and markets drugs or pharmaceutical drugs for use as medications to be administered (or self-administered) to patients, with the aim to cure them, vaccinate them, or alleviate the symptoms. Pharmaceutical companies may deal in generic or brand medications and medical devices. They are subject to a variety of laws and regulations that govern the patenting, testing, safety, efficacy and marketing of drugs.

Aims and objectives of the Workshop:

The pharmaceutical field offers a wealth of job and career opportunities for talented young graduates with a sound background in life sciences and various other academic disciplines. Because these employment options are often insufficiently known to young academics, the aim of this workshop is to give them a better idea about the many job opportunities and requirement in Industries”

Description about the Program:

Department of Chemistry of Raje Ramrao Mahavidyalaya jointly organized One Day National Workshop on Alumni –Student’s Interaction: “Job opportunity in Industries” on Tuesday, 8th November 2022.

Outcomes

1. Alumni can share their industry experiences and contacts, helping students establish valuable connections.
2. Alumni can provide insights into the current job market, industry trends, and the skills in demand.
3. Alumni can offer guidance on crafting effective resumes and performing well in job interviews.
4. Alumni can discuss their career trajectories, helping students understand different pathways in the industry.
5. Alumni can share strategies for job hunting, including using online job portals and leveraging social media.
6. Workshops can include sessions on developing essential soft skills like communication, teamwork, and problem-solving.
7. Alumni can shed light on the work culture and expectations of various companies and industries.
8. Alumni may have information about internships or co-op programs within their organizations.
9. Tailor the workshop to specific industries, such as technology, healthcare, finance, etc., to cater to students' interests.
10. Alumni with postgraduate degrees can advise students on the benefits of pursuing further education.
11. Share stories of alumni who have achieved success in their careers to inspire and motivate current students.
12. Conduct mock interviews with alumni and provide constructive feedback to help students improve their interview skills.
13. Encourage students to build confidence in their abilities and take initiative in their job search.
14. Provide information on useful job search resources, such as career fairs, online platforms, and job placement services.
15. Establish a mentoring program where interested students can receive ongoing guidance from alumni in their field.
16. Allow students to ask questions and seek advice on their specific career concerns.
17. Collect feedback from students to assess the effectiveness of the workshop and make improvements for future events.

General Information:

The many industries discover, develops, produces, and markets drugs or pharmaceutical drugs for use as medications to be administered (or self-administered) to patients, with the aim to cure them, vaccinate them, or alleviate the symptoms. Pharmaceutical companies may deal in generic or brand medications and medical devices. They are subject to a variety of laws and regulations that govern the patenting, testing, safety, efficacy and marketing of drugs.

Aims and objectives of the Seminar:

The pharmaceutical field offers a wealth of job and career opportunities for talented young graduates with a sound background in life sciences and various other academic disciplines. Because these employment options are often insufficiently known to young academics, the aim of this workshop is to give them a better idea about the many job opportunities and requirement in Industries”

Description about the Program:

Outcomes of the Workshop

The present workshop acquainted the delegates and participants with the importance of the "English for Official Communication". It helped to know and study the changing nature of official communication. The workshop also assisted the participants to know that Fluency in English communication plays a critical role. They also came to know that without good English for official communication, they cannot develop an influential rapport with the students.

The workshop highly contributed to know various ways to communicate and negotiate successfully with students of higher education for the official communication. The workshop helped the nonteaching staff to be more attractive and attentive while dealing with visiting authorities to the college. The delegates also studied and attempted to use English for the communication in the workshop.

The present workshop encouraged and helped the delegates to rethink and strengthen their basic knowledge in the use of English for communication. Further the nonteaching staff also studied various useful strategies for the effective use of body languages and communication. Besides, the participants also came to know various technical terms, concepts and terminologies for the official communication.

Overall, it was a fruitful workshop for the nonteaching staff of the college.

Day 2nd 10th May 2022

On the second day of Workshop, Georeferencing is the topic for today's session. Georeferencing is an essential part of any GIS work. Any file which going to be used in GIS is must be Georeferenced. There was a tool in Q-GIS named as Georeference which is used to Georeference to any Raster Image like Satellite Image or Aerial Photograph. Mr. N. G. Lawte taught very well to the students and the faculty members.

Mr. N. G. Lawte has Introduced Georeferencing

Day 7th 15th May 2022

On the 7th day of workshop, Map Layout is the topic for today's session. Georeference is the first stage to start your work with Q-GIS any image. Second stage is to create shapefiles and digitize Raster Image to make Vector Image and Last stage is to Layout your map or your work. Layout means to create a Map form your Digitization. Mr. Lawte sir made it very much easy to everyone by his fruitful teaching method.

Mr. Lawte sir has introduce Map Layout

Day 8th 18th May 2022

On the eight day of Workshop, Application of GPS was the topic for the session. The applications of GPS in various disciplines were well taught by Mr. V. P. Koli. The application of GPS through mobile apps such as Simple GPS and GPS Area Calculator was introduced during the session. All students were installed apps regarding GPS and fully learn about functions of GPS apps.

Mr. V. P. Koli has explained Simple GPS and GPS Area Calculator

General Information:

Chemistry is an incredibly fascinating field of study that encompasses almost every aspect of our existence in some way. It is a fundamental part of our daily life such from the air we breathe to the soil on which we grow fruits and vegetables. Even the emotions we feel and the clothes we feel are somehow associated with the wide spectrum of Chemistry. There are a wide range of courses after M.Sc. Chemistry that range from postgraduate diplomas to Ph.D. level courses. This blog will familiarize with different courses you can pursue after completing M.Sc. degree in this discipline in order to delve deeper into this scientific field and build a lucrative career in Chemistry.

Aims and objectives of the Webinar:

After a post-graduation a wealth of job and career opportunities for talented young graduates with a sound background in life sciences and various other academic disciplines. Because these employment options are often insufficiently known to young academics, the aim of this webinar is to give them a better idea about the many job opportunities after post-graduation in chemical science.

Description about the Program:

Department of Chemistry of Raje Ramrao Mahavidyalaya, Jath jointly organized Webinar on “Decoding Brighter Future Opportunities after Post Graduation in Chemical Science” on Friday, 22nd April 2022.

Total 47 participants registered for the webinar. The webinar was inaugurated at 03:00 pm. For the virtual inaugural function, Hon’ble Prof. (Dr.) Suresh S. Patil, the Principal of Raje Ramrao Mahavidyalaya, presided over the session. Dr. S. R. Kulal, the P. G. Coordinator, presented welcome note. Mr. K. K. Rangar Convenor of webinar announced the inauguration of the webinar and introduced the resource person.

Mr. Dheeraj Mane CSIR NET, GATE, IFAS Academy, Pune has given guidance on Decoding Brighter Future Opportunities after Post Graduation in Chemical Science. Hon’ble Prof. (Dr.) Suresh S. Patil, the Principal of Raje Ramrao Mahavidyalaya, delivered presidential address with a special emphasis on the growth and contribution of Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for the development of society and also the importance about Future Opportunities after Post Graduation in Chemical Science. At the end Asst. Prof. Mr. G. D. Salunke proposed votes of thanks.

Outcomes

1. The webinar can offer career guidance and advice to postgraduate students in chemical science. This includes discussing various career paths available to them, such as research, academia, industry, and government roles.
2. Experts can share insights into the current trends and opportunities in the chemical industry, including the latest advancements in technology and the demand for specific skill sets.
3. The webinar can explore opportunities in academia, such as pursuing a Ph.D., postdoctoral research, and teaching positions, and provide advice on how to navigate this path.
4. Highlight research opportunities in chemical science, including fellowships, grants, and collaborative projects, and guide students on how to access these opportunities.
5. Discuss the essential skills and qualifications needed to excel in the field, such as laboratory techniques, data analysis, and communication skills.
6. Encourage students to build a professional network by participating in conferences, joining professional organizations, and collaborating with industry professionals and peers.
7. Offer advice on job searching, resume building, interview preparation, and networking for job placement after graduation.
8. Explore opportunities for students interested in starting their businesses or working in startups related to chemical science and provide insights into entrepreneurship in the field.
9. Discuss opportunities for further education, such as specialization courses, certifications, and additional degrees.
10. Highlight the importance of personal and professional development, including time management, goal setting, and work-life balance.
11. Allow students to ask questions and seek advice from the speakers and experts in attendance.
12. Share success stories of postgraduate students who have excelled in their careers in chemical science and how they reached their current positions.
13. Provide a list of resources, journals, websites, and publications that can aid students in their academic and professional journey.

ONE PAGE REPORT

Department of Physics, IQAC and IFAS Academy, Pune have organized Webinar on "Unwrapping Brighter Future Opportunities after Post Graduation in Physical Science" on Friday, 22nd April 2022 at Time: 04:00 PM by Online through Google Meet. Prof. Dr. Suresh S. Patil, I/C Principal of the college was president of the function. In his speech he elaborated the future opportunities in Physics after Post-Graduation. Also for this function Dr. A. K. Bhosale, Dr. R. S. Sutar, Mr. Sagar Ingole, Mr. Pradip Gaikwad, Mr. Akshay Jundle, Miss. Rajashree Kalal, Mr. Akash Pasale, were present. Dr. S. R. Kulal have delivered vote of thanks.

The resource person Mr. Mayank Sharma, IFAS PUNE - CSIR NET, GATE, IIT JAM, NEET Coaching Institute, Pune, Maharashtra 411008, India has delivered an Invited Talk. Mr. Mayank Sharma told that Physics graduates opt for specialized courses after BSc Physics in relevant subjects like Quantum Physics, Nanotechnology, Thermodynamics, Particle Physics, Astrophysics and Mathematical Physics to apply their strong head for numbers, detailed knowledge of scientific principles and interest in discoveries related to the physical world. Student can do career as Geophysicist, Metallurgist, Nanotechnologist, Research Scientist, Sound Engineer, Astronomer, Radiation Protection Practitioner to Data Analyst, Clinical Technologist and much more, a career in Physics opens the door to endless possibilities.

The graduate and post-graduate students have exchanged few questions with resource persons and got satisfactory answers. Total 31 participants were present during the Webinar. The valedictory function was held at the end of the workshop.

Aims and objectives of the Workshop

1. Develop intuition and deepen understanding of concepts.
2. Apply concepts learned in class to new situations.
3. Experience basic phenomena.
4. Develop critical, quantitative thinking
5. Develop experimental and data analysis skills
6. Learn to use scientific apparatus

Description about the Program:

Department of Chemistry of Raje Ramrao Mahavidyalaya jointly organized One Day National Workshop on “**Hands-on-Training for Analytical Instrumentation**” on 31th March 2022.

Total 40 participants registered for the workshop. The workshop was inaugurated at 11:00 am Dr. S. R. Kulal announced the inauguration of the workshop and introduced the resource person.

Dr. Prashant Phanasekar (Director, PQS Lab. Goa.) given guidance on “**Hands-on-Training for Analytical Instrumentation**”. Hon’ble Prof. Dr. S. S. Patil, the principal of Raje Ramrao Mahavidyalaya, delivered presidential address with a special emphasis on the growth and contribution of Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for the development of society. At the end Mr. K. K. Rangar proposed vote of thanks while all responsibilities of anchoring effectively done by Mr. R. B. Sawant.

About PQS Training Laboratory

PQS Training Laboratory offers Pharmaceutical Quality Scientist Training Program for Quality Control (QC) and Quality Assurance (QA) with theoretical sessions and practical with the help of latest advanced Analytical instruments. PQS Training Laboratory have well experienced faculties to delivery this course, having wide exposure to the pharma industries. The training program is designed for students and industry professionals who have little or no knowledge in Quality Control and Quality Assurance. This course will help them understand the fundamental and concepts of Quality Control and Quality Assurance. It will enhance their knowledge and skills in the field of QCQA.

The course has been conceived and designed by senior pharma professional, having over 28 years of experience from reputed pharma companies in Quality Control and Quality Assurance areas.

This training program is designed in tune with the industry needs & requirements. We take utmost care to include the recent regulations and guidelines.

It is designed to provide the aspiring Pharmaceutical Quality professional with the knowledge and understanding they need to perform their duties with skill and competence when interacting with QC laboratories.

During our pharmaceutical Quality Scientist Training Program, we explain the strengths and limitations of analysis and specific analytical methods. During this training, you also learn how to apply the principles of quality management and Good Manufacturing Practice (GMP) to the testing environment in a practical and effective way. We also advise you on data integrity and how to ensure & maintain your laboratories all time compliant to regulatory expiations expectations.

Programs are carried out with high levels of staffing to encourage questions, interactions and discussions. Trainees are advised to take the opportunity to improve their networks through regular interactions with other students and tutors present on the day of the course.

Trainees in this program undergo a unique educational training experience as they practice on the similar instruments which are routinely used in industry. This program also includes group practical training under expert supervision.

The Pharmaceutical Quality Scientist Training program is a hands-on pharmaceutical analysts' program that combines applied chemistry with specific in-depth training in pharmaceutical industry drug analysis. This program is suited for individuals with strong background in chemistry/Pharma.

We also conduct need based training programs on different key analytical techniques using sophisticated instruments, like HPLC, Dissolution, FTIR., UV Spectrophotometry, Karl Fisher, Auto titrator, Disintegration and dissolution.

Quality control (Laboratory Systems):

- ✓ Basic GMP Training for the QC Laboratory
- ✓ Laboratory safety
- ✓ Brief Explanation on Pharmacopeias USP, BP, Ph. Eur. and IP
- ✓ General Notices
- ✓ Good laboratory practices
- ✓ Sample management
- ✓ Sampling of Drug Substances and Excipients
- ✓ Sampling of Drug Products
- ✓ Testing requirement for Drug Substance and Excipients
- ✓ Testing requirement for Drug products different dosage forms
- ✓ Sampling of Packaging materials
- ✓ Testing of Packaging materials
- ✓ Testing and reporting of results
- ✓ Volumetric Solutions Preparation & Standardization
- ✓ Laboratory Standards (RS and WS)

Quality control (Instrumentation):

- ✓ Analytical Balance
- ✓ pH
- ✓ Conductivity
- ✓ Melting point/Melting Range
- ✓ Density
- ✓ Karl Fisher
- ✓ Auto titrator
- ✓ Refractometer
- ✓ Polarimeter
- ✓ Viscometer
- ✓ Disintegration Tester
- ✓ Dissolution Tester
- ✓ Fourier Transform Infrared Spectrophotometer (FTIR)
- ✓ Ultra Violet Spectrophotometer
- ✓ High Performance Chromatograph (HPLC)
- ✓ Gas Chromatograph (GC)
- ✓ X- Ray Diffraction
- ✓ Particle size by Laser Diffraction
- ✓ Thermal Analysis (DSC/TGA)
- ✓ Tapped Density
- ✓ Friability Tester
- ✓ Hardness Tester
- ✓ Particle Size by Microscopy

ICP-MS

Quality control (Testing):

- ✓ Description
- ✓ Solubility
- ✓ Identification test for molecule
- ✓ Loss on Drying
- ✓ Residue on Ignition/Sulphated Ash
- ✓ Titrimetric
- ✓ Physical Tests for different dosage forms
- ✓ Assay by Titrimetric
- ✓ Assay by UV Spectroscopy
- ✓ Assay by HPLC
- ✓ Related Substances by HPLC
- ✓ Related substances by TLC
- ✓ Residual solvents by GC
- ✓ Uniformity of dosage units
- ✓ Limit Tests
- ✓ Congealing Temperature
- ✓ Breakability

Career Opportunities:

The Pharmaceutical Quality Scientist Training Program is easy to learn and comprehensive. It teaches not only the basic concept related to the subject, but also covers advanced topics as well. This course will help participants to understand and implement Quality Control and Quality Assurance for the particular operation during drug development/manufacturing. The course helps in better understanding of drug development process and its importance in the Pharma Industry and appraise them for following career opportunities.

- ✓ Quality Assurance Technicians or Analysts
- ✓ Quality Assurance or Control Managers
- ✓ Quality Researcher

The career paths of our student's lead them to high-paying jobs in various industries including pharmaceutical, biopharmaceutical, biotechnology, advanced-drug delivery, medical devices, food, cosmetics, natural product, nutraceutical and other life science industries. Individuals going through this program secure employment in positions such as a:

- ✓ Quality Assurance Associate
- ✓ Quality Team Leader
- ✓ Quality Control Analyst
- ✓ In-process QC Analyst
- ✓ QC Document Reviewer
- ✓ Validation Technician

Resource Person-I

Meet our PQS Training experts

Prashant Phanasekar (Analytical Testing using
Instrument and Pharmaceutical Aerosol, Training, audit & compliance.

Prashant has over 22 years of experience of Laboratory Management in reputed export-oriented Quality organization. Awarded a first-class Master degree in science, specialising in Organic Chemistry. He studied for PhD at SSUTMS university Sihore, Bhopal.

He was HOD of Quality Control Laboratory at Cipla Ltd, Marksans Pharma Ltd, FDC Ltd and currently leading PQS Training Academy Goa as Director.

He specialises in Analytical Method development and validation, Atomization of Pharmaceutical Aerosol testing procedures, Training, audit & compliance

Prashant also completed Certification of NLP (Neuro Linguistic Programming) training and attended International Training program at Shimadzu Corporation Singapore and at Teuto Laboratories Brazil.

Prashant has been undergone through regulatory Audits like USFDA, UK-MHRA, WHO, MCC-South Africa, Brazil-Anvisa, Invima Colombia etc.

Resource Person-II

Poonam Naik

Analytical testing– expertise in thorough Testing of tablets and capsules dosage forms.

She has over 3 years of experience in testing of different formulations like tablets and capsules.

Poonam holds degree in Pharmacy and is registered with the State Pharmacy council, Goa.

Poonam specialises in calibration of various instruments used for Quality testing in pharmaceutical industries.

She is good at delivering trainings with accuracy and engagement by creating an active learning atmosphere.

Outcomes

1. Participants will acquire practical skills in operating and maintaining analytical instruments. They will gain hands-on experience with various analytical techniques and instruments, which can be applied in their work or research.
2. Workshops typically provide in-depth knowledge about the principles and applications of analytical instrumentation. Participants will have a better understanding of how these instruments work and how to interpret the data they generate.
3. Participants will develop the ability to troubleshoot common issues and problems that can arise while using analytical instruments. This can save time and resources in real-world situations.
4. Participants will learn how to analyse and interpret data obtained from analytical instruments. This is crucial for drawing meaningful conclusions from experiments or measurements.
5. The workshop may emphasize the importance of quality control in analytical processes. Participants will learn how to ensure the accuracy and precision of their measurements.
6. The workshop may include practical exercises or case studies, allowing participants to apply what they've learned to real-world scenarios relevant to their field of work or research.
7. Participants will gain confidence in their ability to operate and utilize analytical instruments effectively. This can lead to improved job performance and research outcomes.
8. Workshops often provide opportunities for participants to network with experts and peers in the field. This can lead to collaborations and the exchange of ideas and experiences.
9. Depending on the workshop, participants may receive certificates or credentials, which can be valuable for career advancement or demonstrating expertise to employers or colleagues.
10. Participants may provide feedback on the workshop content and delivery, which can be used to improve future iterations of the training program.
11. Participants may receive documentation, manuals, or reference materials to help them continue learning and using the analytical instruments effectively after the workshop.
12. By gaining hands-on experience and learning best practices, participants may become more efficient in their work, reducing downtime and errors associated with analytical instruments.

General Information

Many common household products contain chemicals that can cause injury or death if they are not handled, stored, or used properly. Some of the household products that contain hazardous chemicals are oven cleaners, tile cleaners, toilet-bowl cleaners, liquid drain openers, antifreeze, chrome-wheel cleaners, rust removers, gasoline, motor oil, lead paint, turpentine, lacquer thinner, and muriatic acid. These safety precautions can help keep you and your family safe.

Aims and objectives of the Workshop

1. To realize that chemicals and potential toxics are all around us
2. We can make a choice whether or not to use some of these chemicals
3. Understand that it is important to read the label on products
4. Understand that people have different philosophies about risk-taking

Description About the Program:

Department of Chemistry of Raje Ramrao Mahavidyalaya jointly organized One Day National Workshop on “**Hands-on-Training for Preparation of Household Chemicals**” on 13th Jan. 2022.

Total 45 participants registered for the workshop. The workshop was inaugurated at 11:00 am with the inspiring message of Sanstha Prayer. For the virtual inaugural function, Hon’ble Prof. Dr. S. S. Patil, the principal of Raje Ramrao Mahavidyalaya, presided over the session. Dr. S. R. Kulal, P.G Coordinator, presented welcome note. Mr. K. K. Ranger (HOD) of workshop announced the inauguration of the workshop and introduced the resource person.

Dr. Kishor V. Gaikwad (Assistant Professor, Dept. of Chemistry Rajarshi Chhatrapati Shahu College Kolhapur.) given guidance on **Hands-on-Training for Preparation of Household Chemicals**. Hon’ble Prof. Dr. S. S. Patil, the principal of Raje Ramrao Mahavidyalaya, delivered presidential address with a special emphasis on the growth and contribution of Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for the development of society. At the end Mr. G. D. Salunke proposed vote of thanks while all responsibilities of anchoring effectively done by Dr. S. R. Kulal.

Outcomes

1. Participants should gain a deeper understanding of the household chemicals they commonly use, their ingredients, and their potential risks and benefits.
2. One of the key outcomes should be an improved awareness of safety precautions and best practices when handling household chemicals. This includes understanding the importance of proper storage, labelling, and disposal.
3. Participants should acquire practical skills related to the safe preparation and use of household chemicals. This may include mixing, diluting, and measuring chemicals accurately.
4. For those who use household chemicals in their work, such as housekeepers or janitors, the workshop can lead to improved productivity and efficiency in performing their tasks.
5. The workshop can promote environmental responsibility by educating participants about the impact of household chemicals on the environment and encouraging the use of eco-friendly alternatives.
6. Participants may learn how to prepare household cleaning solutions or chemicals at a lower cost than buying commercial products, leading to potential cost savings.
7. Understanding the correct handling and usage of household chemicals can reduce the risk of accidents, injuries, or harmful exposures in homes and workplaces.
8. Participants may feel more confident and empowered to take charge of their cleaning and maintenance tasks, knowing they have the knowledge and skills to handle household chemicals safely.
9. Properly prepared household chemicals can contribute to a healthier and cleaner living environment, which can lead to improved health and hygiene for individuals and their families.
10. Workshops often provide opportunities for participants to connect with peers and experts in the field, fostering collaboration and information sharing.
11. Some workshops may include assessments or certifications to measure the participants' understanding and competence in handling household chemicals.
12. The outcomes can also include gathering feedback from participants to improve the workshop for future sessions.

Report on National Workshop on Intellectual Property Rights (IPR): Copyright and Trademarks

Shri Swami Vivekanand Shikshan Sanstha's, Raje Ramrao Mahavidyalaya, Jath, Dist: Sangli – 416404, Maharashtra, India, (Affiliated to Shivaji University, Kolhapur), Research and Innovation Committee and IQAC has organized a National Workshop on Intellectual Property Rights (IPR): Copyright and Trademarks on Day and Date: Thursday, 13th January 2022 Time: 12 to 04 PM at Venue: Schrodinger Hall, Department of Physics. The Resource Person was Dr. Kishor V. Gaikwad, Assistant Professor, Dept. of Chemistry, Rajarshi Chhatrapati Shahu College, Kolhapur – 416005, Maharashtra, India. The President of the function was Prof. (Dr.) Suresh S. Patil, I/C Principal, Raje Ramrao Mahavidyalaya, Jath, Maharashtra, India. Organizing Committee members were also present during the workshop as Dr. Sanjay S. Latthe, Dr. S. G. Gawade, Dr. B. M. Dahalake, and Dr. S. R. Kulal.

Dr. Kishor V. Gaikwad explained as the Copyright protects original work, whereas a trademark protects items that distinguish or identify a particular business from another. Copyright is generated automatically upon the creation of original work, whereas a trademark is established through common use of a mark in the course of business. A brand is a marketing concept that encompasses how people feel about your product or service. Customers associate certain elements with different brands, such as reputation, image, and emotion. For example, a certain brand might have been developed to encourage you to feel confident, calm, or secure. On the other hand, a federal trademark registration can provide nationwide legal protection for your brand in connection with particular goods or services. It is your choice whether to protect your brand under trademark law. Many business owners choose to protect their brand names for their main or dominant goods or services. You might also choose to protect a slogan or logo for those goods or services, if you have one. Total of 63 participants including faculty and students were present during the workshop.

Vote of thanks was given by committee member Dr. B. M. Dahalake. Few questions were exchanged by the students and the resource person have answered them smoothly.

1. General Information:

The pharmaceutical industries discovers, develops, produces, and markets drugs or pharmaceutical drugs for use as medications to be administered (or self-administered) to patients, with the aim to cure them, vaccinate them, or alleviate the symptoms. Pharmaceutical companies may deal in generic or brand medications and medical devices. They are subject to a variety of laws and regulations that govern the patenting, testing, safety, efficacy and marketing of drugs.

Aims and objectives of the Workshop:

The pharmaceutical field offers a wealth of job and career opportunities for talented young graduates with a sound background in life sciences and various other academic disciplines. Because these employment options are often insufficiently known to young academics, the aim of this workshop is to give them a better idea about the many job opportunities and requirement in Pharmaceutical Industries”

Description about the Program:

Department of Chemistry of Raje Ramrao Mahavidyalaya jointly organized One Day National Workshop on Alumni –Student’s Interaction: “Job opportunity in Pharma Industries” on 8th January 2022.

Report of Webinar on Patents and Patent Filing Process

Intellectual Property Rights (IPR) & Industrial Academia Collaboration Cell, and IQAC of Raje Ramrao Mahavidyalaya, Jath, Dist: Sangli, Maharashtra, India had successfully organized 'Webinar on Patents and Patent Filing Process' on Thursday, 22nd July 2021. About 281 participants have actively participated in the webinar. A Resource Person was Dr. Prakash Arun Bansode, Associate Professor, Department of Chemistry, Sangola College Sangola, Dist: Solapur, Maharashtra, India.

He discussed on the intellectual property rights including patents, copyright, industrial design rights, trademarks, plant variety rights, trade dress, geographical indications, and in some jurisdictions trade secrets. A patent is a form of right granted by the government to an inventor or their successor-in-title, giving the owner the right to exclude others from making, using, selling, offering to sell, and importing an invention for a limited period of time, in exchange for the public disclosure of the invention. An invention is a solution to a specific technological problem, which may be a product or a process and generally has to fulfil three main requirements: it has to be new, not obvious and there needs to be an industrial applicability. To enrich the body of knowledge and stimulate innovation, it is an obligation for patent owners to disclose valuable information about their inventions to the public. These exclusive rights allow owners of intellectual property to benefit from the property they have created, providing a financial incentive for the creation of an investment in intellectual property, and, in case of patents, pay associated research and development costs.

Organizing Committee members Dr. Sanjay S. Latthe, Dr. B. M. Dahalake, Dr. S. G. Gavade, and Dr. Shivaji R. Kulal were present during the webinar. Prin. Dr. Suresh S. Patil has addressed on the importance of the Patents and Patent Filing Process in coming days. Dr. B. M. Dahalake has given the vote of thanks.

The diagram illustrates the classification of Property. It is first divided into Tangible and Intangible. Tangible property is further divided into Movable (e.g., car) and Immovable (e.g., building). Intangible property is divided into Intellectual Property, which includes Industrial Property and Copyright. An illustration of a human head with gears represents intellectual property.

What is Intellectual Property?

- Intellectual Property is a **property that arises from the human intellect**
- It is a product of human creation
- Intellectual Property comprises two distinct forms
 - **Literary and artistic works**
 - **Industrial Property**

The slide defines Intellectual Property as a property arising from human intellect, a product of human creation, and consists of literary/artistic works and industrial property. An illustration shows a human head with gears, a lightbulb, and a scale of justice, symbolizing intellectual property.

About Sanstha:
Shri Swami Vivekanand Shikshan Sanstha, Kolhapur is one of the few renowned and leading educational institutions in Maharashtra (India) founded in 1954 by late Shiksharmaharshi Dr. Bapuji Salunkhe. The Sanstha is named after the great Indian Philosopher Shri. Swami Vivekananda. The Sanstha is founded with the major objectives of educating the rural, economically weaker pupils in the total 13 districts of Maharashtra and one district of Karnataka. Presently, more than 2 lakhs pupils study in more than 400 Sanskrit Kendras.

About College:
Raje Ramrao Mahavidyalaya, affiliated to Shivaji University, Kolhapur opened in 1969 with the noble and generous support of the Princely State of Jath. The college, right from its inception, has shown academic excellence and students have won meritorious awards and have maintained top ranks in the university examinations.

1. General Information:

The pharmaceutical industries discovers, develops, produces, and markets drugs or pharmaceutical drugs for use as medications to be administered (or self-administered) to patients, with the aim to cure them, vaccinate them, or alleviate the symptoms. Pharmaceutical companies may deal in generic or brand medications and medical devices. They are subject to a variety of laws and regulations that govern the patenting, testing, safety, efficacy and marketing of drugs.

Aims and objectives of the Workshop:

The pharmaceutical field offers a wealth of job and career opportunities for talented young graduates with a sound background in life sciences and various other academic disciplines. Because these employment options are often insufficiently known to young academics, the aim of this workshop is to give them a better idea about the many job opportunities and requirement in Pharmaceutical Industries.

Description about the Program:

Department of Chemistry of Raje Ramrao Mahavidyalaya jointly organized One Day National Workshop on Job Opportunity after B. Sc. Chemistry on 10th March 2021.

Total 91 participants registered for the workshop. The workshop was inaugurated at 11:00 am with the inspiring message of Sanstha Prayer. For the inaugural function, Hon'ble Prof. (Dr.) Suresh S. Patil, the Principal of Raje Ramrao Mahavidyalaya, presided over the session. Dr. S. R. Kulal, the P. G. Coordinator, presented welcome note. Mr. K. K. Rangar announced the inauguration of the webinar and introduced the resource person.

Dr. G. D. Kore (Assistant Professor, PVP College, Kavathe-Mahankal) has given guidance on Career Opportunity after B. Sc. Chemistry.

Hon'ble Prof. (Dr.) Suresh S. Patil, the Principal of Raje Ramrao Mahavidyalaya, delivered presidential address with a special emphasis on the growth and contribution of Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for the development of society and also the importance of Pharmaceutical Industries. At the end Asst. Prof. Mr. G. D. Salunke proposed votes of thanks while all responsibilities of anchoring effectively done by Dr. S. R. Kulal.

Brief Summary of One Day Webinar

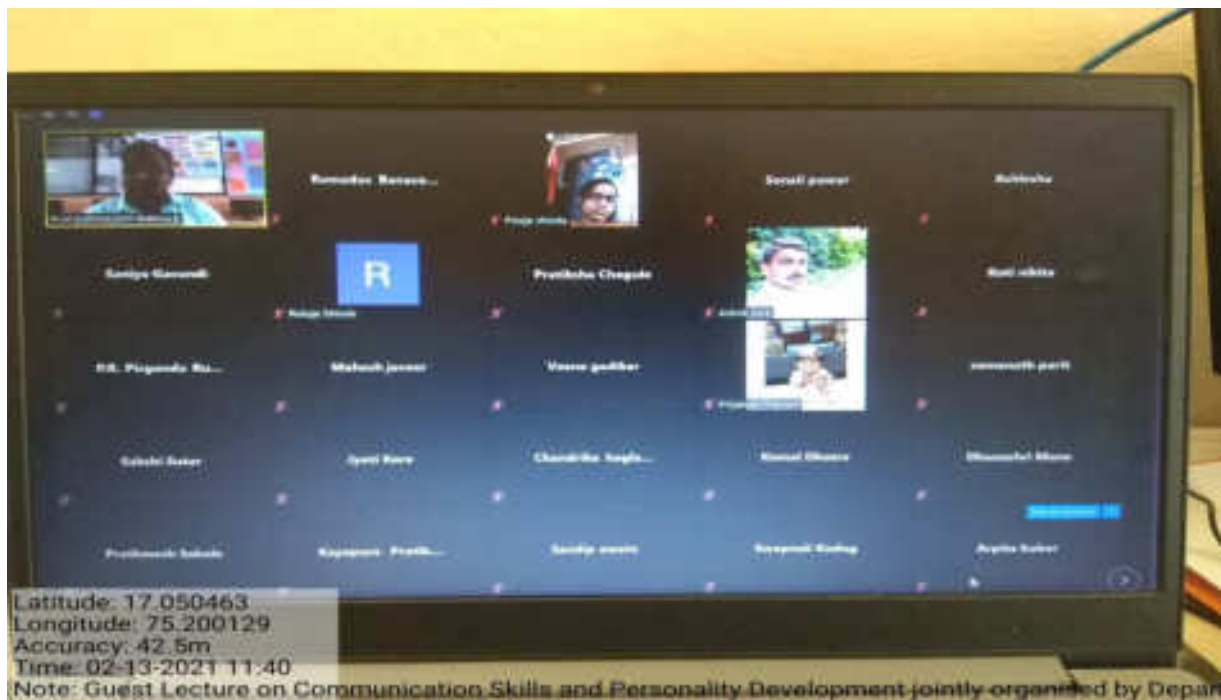

Department of English and Internal Quality Assurance Cell of Raje Ramrao Mahavidyalaya jointly organized One Day Webinar on “English Communication Skills and Personality Development” on 13th Feb, 2021 (Saturday). The present webinar aimed at assisting students of higher education to know the importance of English communication skills and tackle multiple questions on English language domains and score more marks to stand out in the private sector with the support of effective body language.

Total 141 participants registered for the webinar and 100 students participated in it. The webinar was inaugurated at 10:00 am with the inspiring message of Sanstha Prayer. For the virtual inaugural function, Hon’ble principal of Raje Ramrao Mahavidyalaya, presided over the session. Asst Prof R. S. Banasode, the organizing secretary of webinar, presented welcome note. Hon’ble Prof. S. N. Parkale of C. K. T. College, Panvel, New Mumbai delivered a beautiful talk on the main theme of webinar. Hon’ble principal delivered presidential address with a special emphasis on the growth and contribution of Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for the development of society. Asst. Prof. T. U. Sannake proposed vote of thanks.

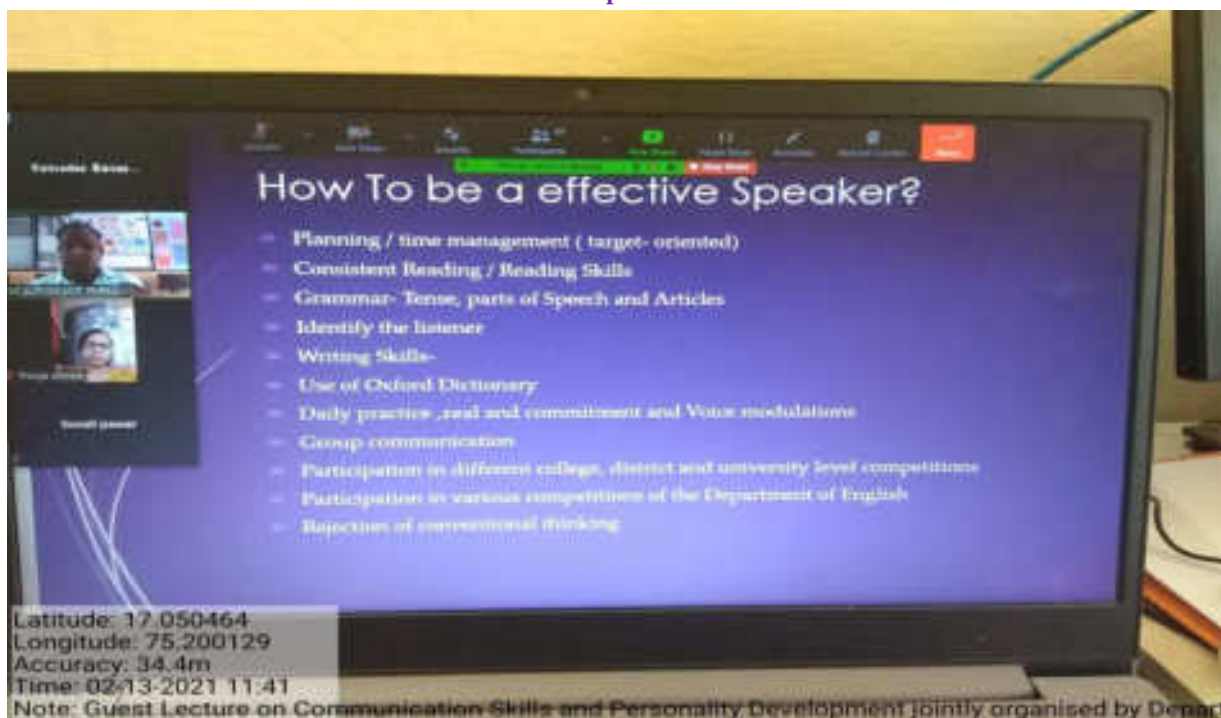

In view of changing dimensions and drastic changes in the public sector, the Resource speaker Hon’ble Prof. S. N. Parkale of C. K. T. College, Panvel, New Mumbai explicated different aspects related to the communication skills in English. Further, he elaborated the importance nature of English across the world. Besides, he laid a special emphasis on various useful tools and strategies for the personality development. He explained four major domains of English language for competitive exams like grammar, vocabulary, comprehension and interview. Further various techniques, strategies and innovative schemes to tackle various challenges during the preparation of competitive exams. Further many useful books, web-links were suggested for the communication in English language.

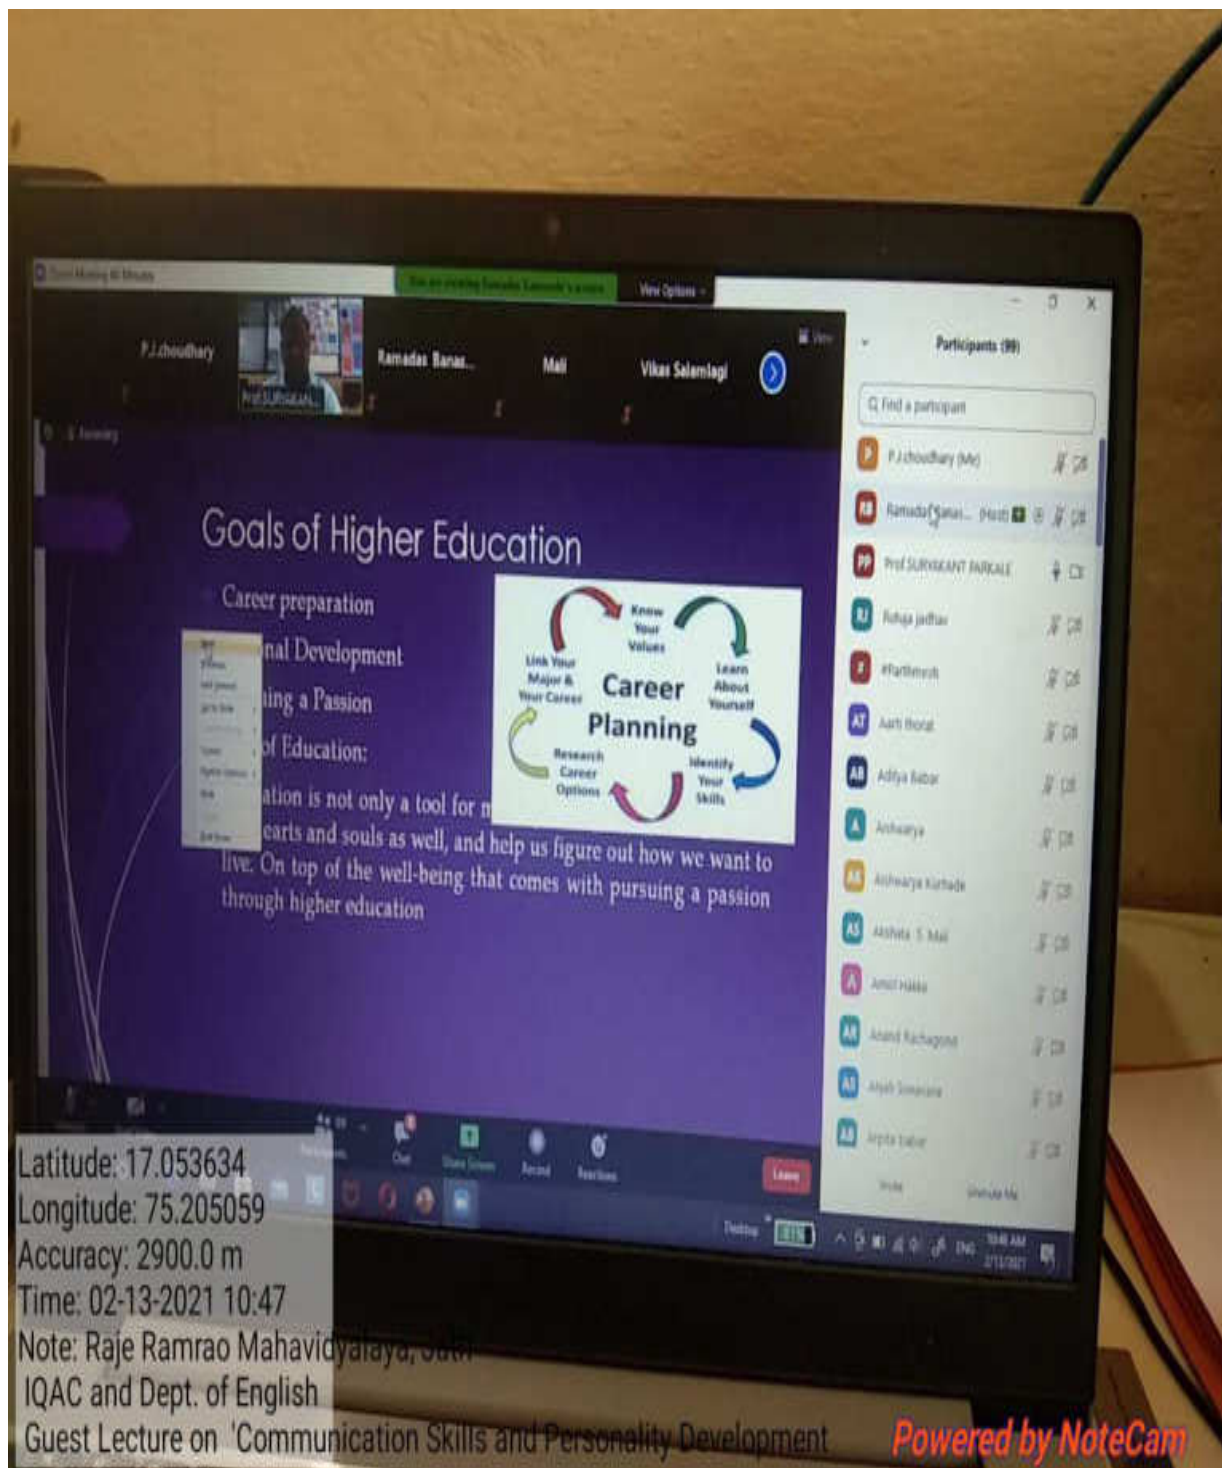

In the question-answer session, multiple doubts of participants were discussed and solved. Asst Prof. T U Sannake performed the role of anchor and Asst. Prof. V. N. Yamgar proposed vote of thanks.

Report of Webinar on Single Crystal Perovskites: Next Wave of Photovoltaic Technology

Department of Physics, Raje Ramrao Mahavidyalaya, Jath, Dist: Sangli, Maharashtra, India had successfully organized Webinar on Single Crystal Perovskites: Next Wave of Photovoltaic Technology on Sunday, 14th June 2020. About 156 participants have actively participated in the webinar. A Resource Person was Dr. Murali Banavoth, Assistant Professor, Solar Cells and Photonics Research Laboratory, University of Hyderabad, Central University, Hyderabad – 500046, Telangana State, India.. He discussed on the growth of high-quality single-crystal (SC) perovskite films which has a great strategy for the fabrication of defect-free perovskite solar cells (PSCs) with photovoltaic parameters close to the theoretical limit, which resulted in high efficiency and superior stability of the device. Plenty of growth methods for perovskite SCs are available to achieve a maximum power conversion efficiency (PCE) surpassing 21% for SC-based PSCs. However, there is still a lot of room to further push the efficiency by considering new crystal growth techniques, interface engineering, passivation approaches, and additive engineering. During the webinar, the participants, have exchanged the questions, cleared their doubts and discussed new ideas emerging in the Photovoltaic Technology.

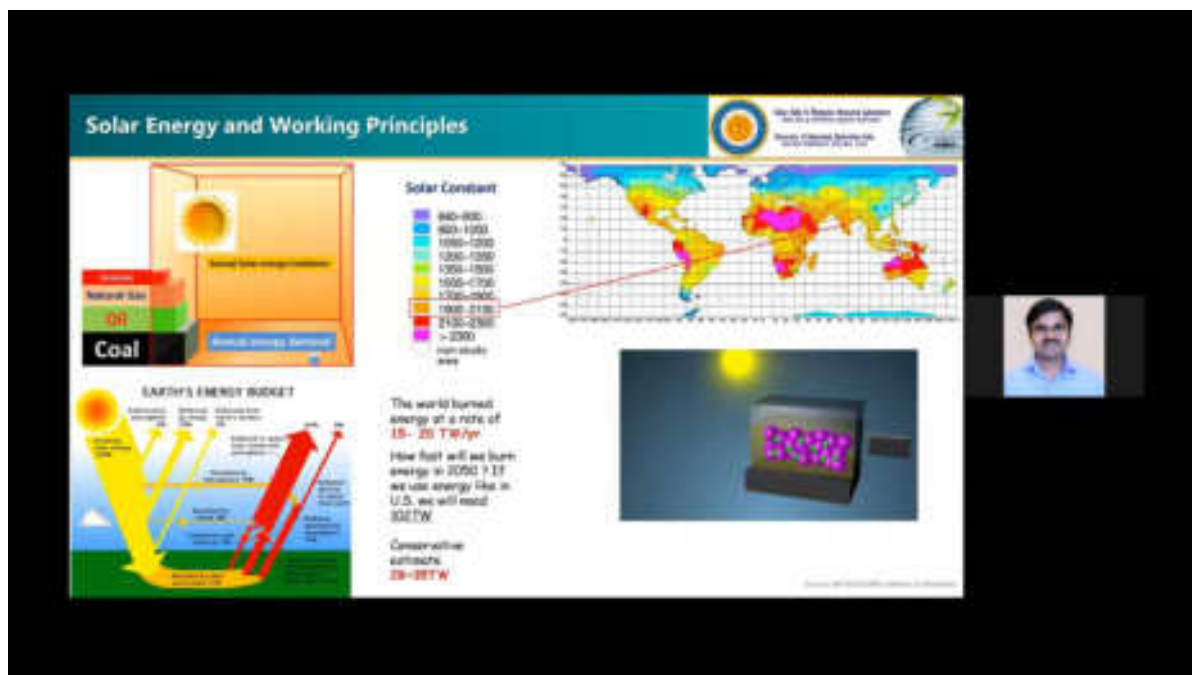

Organizing Committee members were Dr. Sanjay S. Latthe, Dr. Shrikant R. Kokare, Dr. A. K. Bhosale, Dr. Shivaji R. Kulal, Mr. Rajaram S. Sutar and Mr. Vishnu S. Kodag. Prin. Dr. V. S. Dhekale has addressed on the importance of the Photovoltaic Technology in coming days. Dr. S. S. Latthe has given the vote of thanks.

Single Crystals within Minutes

Single crystals Synthesis within Minutes

Unprecedented attributes

- High absorption coefficients
- Adjustable optical band gaps
- Very long carrier lifetime
- Long electron-hole diffusion lengths
- High carrier mobilities
- Low surface recombination velocities

Perovskites Photovoltaics

Temperature Induced Interface Reconstruction Affects Performance

Project: Enhancing solar cell performance: Temp. Effect

Albeit improvements focused on state-of-the-art technology progress is yet to be made in understanding the actual operational temperature on the electronic properties and the device performances. The substantial effect of temperature on the optoelectronic properties, charge separation, charge recombination dynamics and photo conversion efficiency (PCE) are explored.

Perovskites Photovoltaics

Temperature Induced Interface Reconstruction Affects Performance

Surface Restructuring: Exploring true Behavior of Perovskite

- > Visualization of surface transformation of perovskite single crystals.
- > Formation of a hydrated layer (polycrystalline-like structure) on the surfaces of single crystals and hence the formation of grain boundaries.
- > Providing new insights to optimize surface quality and stability of crystals
- > Resolving integration challenges in perovskite noncrystalline solar cells.

BRIEF SUMMARY of SEMINAR

Internal Quality Assurance Cell (IQAC), Raje Ramrao Mahavidyalaya, Jath successfully organized One Day Seminar on “Whose Exam Exactly It Is During the Covid-19 Pandemic?” on Friday, 12th June, 2020. In order to discuss several barriers in the process of the conduction of exam during Covid-19 pandemic, the current seminar was organized. Dr. Arun Adsul, the former vice-chancellor of SPPU, Pune, Dr. R. S. Mali, , the former vice-chancellor of KBC Uttar Maharashtra University, Jalgaon, Dr. B. M. Hirdekar, the former registrar of SGU, Kolhapur and other eminent scholars actively participated in the seminar.

The principal of Raje Ramrao College, Dr. V. S. Dhekale welcomed all the guests and participants. He underscored that the main theme (“Whose Exam Exactly It Is During the Covid-19 Pandemic?”) of the seminar is a current burning topic and there is an urgent need of a deeper level discussion on this topic. Most of the guest speakers supported and expressed their opinion in favour of the conduction of exam during the during Covid-19 pandemic.

Many participants also actively expressed their views regarding the conduction of exam during the during Covid-19 pandemic. It was a fruitful discussion on the conduction of exam during the during Covid-19 pandemic. Many suggestions were sent to government of Maharashtra. Dr. S. R. Kokare expressed vote of thanks.

1. General Information

The pharmaceutical industry discovers, develops, produces, and markets drugs or pharmaceutical drugs for use as medications to be administered (or self-administered) to patients, with the aim to cure them, vaccinate them, or alleviate the symptoms. Pharmaceutical companies may deal in generic or brand medications and medical devices. They are subject to a variety of laws and regulations that govern the patenting, testing, safety, efficacy and marketing of drugs.

Aims and objectives of the Workshop

The pharmaceutical field offers a wealth of job and career opportunities for talented young graduates with a sound background in life sciences and various other academic disciplines. Because these employment options are often insufficiently known to young academics, the aim of this workshop is to give them a better idea about the many job opportunities and requirement in Pharmaceutical Industries”

Description About the Program:

Department of Chemistry and Internal Quality Assurance Cell of Raje Ramrao Mahavidyalaya jointly organized One Day National Workshop on “**“Career Opportunities and Requirement in Pharmaceutical Industries”**” on 21st Dec., 2019.

Total 35 participants registered for the workshop. The workshop was inaugurated at 11:00 am with the inspiring message of Sanstha Prayer. For the virtual inaugural function, Hon’ble Prof. Dr. V. S. Dhekale, the principal of Raje Ramrao Mahavidyalaya, presided over the session. Dr. S. R. Kulal, the IQAC Coordinator, presented welcome note. Mr. D. A. Kumbhar Convenor of workshop announced the inauguration of the webinar and introduced the resource person.

Mr. Umesh Honrao (Founder & Director of US QUALITY PHARMA INDUSTRIAL TRAINING ACADEMY) given guidance on Career Opportunities to students in Pharmaceutical Industries. Hon’ble Prof. Dr. V. S. Dhekale, the principal of Raje Ramrao Mahavidyalaya, delivered presidential address with a special emphasis on the growth and contribution of Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for the development of society and also the importance of Pharmaceutical Industries. Mr. M. H. Karrenavar also

given guidance to students. At the end Asst. Prof. Mr. K. K. Rangar proposed vote of thanks while all responsibilities of anchoring effectively done by Mr. G. D. Salunke.

Brief Summary of One Day Workshop

Department of NCC and Internal Quality Assurance Cell of Raje Ramrao Mahavidyalaya jointly organized One Day workshop on “Opportunities of Career in Indian Army” on 4th Oct., 2019 (Friday).

Total 72 participants registered for the workshop. The workshop was inaugurated at 11:00 am with the inspiring message of Sanstha Prayer. For the virtual inauguration function, Hon’ble Dr. V. S. Dhekale, the principal of Raje Ramrao Mahavidyalaya, presided over the session. Lt. P.A. Sawant (Head of N.C.C. Dept.), the organizing secretary of seminar presented welcome note. Hon’ble Col. S.K. Babu (Commanding Officer, 16 Mah BN, NCC Sangli) announced the inauguration of the Workshop with the focus on a few concepts of the main theme of Workshop. Hon’ble Dr. V. S. Dhekale, the principal of Raje Ramrao Mahavidyalaya, delivered presidential address with a special emphasis on the growth and contribution of Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for the development of society. Dr. Shivajirao Kulal (Coordinator IQAC Department) proposed vote of thanks.

Honourable chief guest Col. S. K. Babu motivated the cadets to pursue their dream by giving his life examples. He also spoke about the patriotism one should have as a civilian and urged the audience to join Indian Army. When cadets asked him about the quality of the arms provided to the defence force, Col. quickly replied saying, I do not know if we have top quality guns but we definitely have top quality men which left the students wonderstruck..

In an afternoon session was the question-answer session; multiple doubts of participants were discussed and solved by guest. NCC senior under officer Cdt. Vishal Patil performed the role of anchor.

AIMS AND OBJECTIVES OF SEMINAR

1. India has witnessed substantial growth both in production and consumption of plastics. In absence of appropriate waste collection and segregation processes, the management of the waste especially for discarded plastics used for packaging, has become a challenging task.
2. Today seminar provides an overview of the available alternative for the source recovery from plastic waste, with consideration of integrated waste management, to evaluate the best possible option available under Indian scenario.
3. To make more conscious purchasing decision.
4. To find out where their rubbish goes.
5. Learn more about the environment.
6. They can make it something fun. Recycling does not have to be a drag.
7. To increase understanding of the plastic pollution problem so more sustainable solution are found , innovations implemented, and more people and organization are empowered to take action to stop plastic pollution and live plastic free .

Brief Summary of One Day Seminar

Department of NCC and Internal Quality Assurance Cell of Raje Ramrao Mahavidyalaya jointly organized One Day Seminar on “Plastic Waste Management” on 26th Sept., 2019 (Thursday).

Total 67 participants registered for the seminar. The seminar was inaugurated at 11:30 am with the inspiring message of Sanstha Prayer. For the virtual inaugural function, Hon’ble Dr. V. S. Dhekale, the principal of Raje Ramrao Mahavidyalaya, presided over the session. Lt. P. A. Sawant (Head of N.C.C. Dept.), the organizing secretary of seminar presented welcome note. Hon’ble Mahesh Gavali (Coordinator, Sanitary dept., Jath Nagar Palika Jath) and Hon’able Vaibhav Chougule (Eng. Water and Sanitary dept. Jath Nagar Palika Jath) announced the inauguration of the Seminar with the focus on a few concepts of the main theme of seminar. Hon’ble Dr. V. S. Dhekale, the principal of Raje Ramrao Mahavidyalaya, delivered presidential address with a special emphasis on the growth and contribution of Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for the development of society. Dr. Shivajirao Kulal (Coordinator IQAC Department) proposed vote of thanks.

Honourable chief guest Mahesh Gavali delivered a lecture on importance of water and its relation with sanitation. He showed a short film on hygiene. Hon’able guest was actively participated in SWACCHA BHARAT ABHIYAN conducted by Jath Nagar Palika..

.In an afternoon session was the question-answer session, multiple doubts of participants were discussed and solved by guest.NCC junior under officer Cdt. Swati Sawant. performed the role of anchor.

1. General Information

Analytical chemistry studies and uses instruments and methods used to separate, identify, and quantify matter. In practice, separation, identification or quantification may constitute the entire analysis or be combined with another method. Separation isolates analytes. Qualitative analysis identifies analytes, while quantitative analysis determines the numerical amount or concentration. Analytical chemistry consists of classical, wet chemical methods and modern, instrumental methods. Classical qualitative methods use separations such as precipitation, extraction, and distillation. Identification may be based on differences in color, odor, melting point, boiling point, solubility, radioactivity or reactivity. Classical quantitative analysis uses mass or volume changes to quantify amount. Instrumental methods may be used to separate samples using chromatography, electrophoresis or field flow fractionation. Then qualitative and quantitative analysis can be performed, often with the same instrument and may use light interaction, heat interaction, electric fields or magnetic fields. Often the same instrument can separate, identify and quantify an analyte. Analytical chemistry is also focused on improvements in experimental design, chemometrics, and the creation of new measurement tools. Analytical chemistry has broad applications to medicine, science and engineering.

Aims and objectives of the Workshop

To understand various “Scopes in Analytical Chemistry” in different sectors. Students can know role of analytical chemistry in our society, such as in drug manufacturing, process control in industry, environmental monitoring, medical diagnostics, food production, and forensic surveys. Also of great importance in different research areas.

Description About the Program:

Department of Chemistry and Internal Quality Assurance Cell of Raje Ramrao Mahavidyalaya jointly organized One Day National Workshop on “**Scopes in Analytical Chemistry**” on 10th Dec., 2019.

Total 16 participants registered for the workshop. The workshop was inaugurated at 11:00 am with the inspiring message of Sanstha Prayer. For the virtual inaugural function,

Hon'ble Prof. Dr. V. S. Dhekale, the principal of Rajee Ramrao Mahavidyalaya, presided over the session. Mr. G. D. Salunke, presented welcome note. Mr. S. R. Kulal IQAC Coordinator of workshop announced the inauguration of the webinar and introduced the resource person.

Dr. A. R. Supale (Asst. Prof. Patangarao Kadam College Sangli) given guidance on various Scopes in Analytical Chemistry. Hon'ble Prof. Dr. V. S. Dhekale, the principal of Rajee Ramrao Mahavidyalaya, delivered presidential address with a special emphasis on the growth and contribution of Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for the development of society and also the importance of Pharmaceutical Industries. Mr. M. H. Karrenavar also given guidance to students. At the end Asst. Prof. Mr. K. K. Rangar proposed vote of thanks while all responsibilities of anchoring effectively done by Mr. D. A. Kumbhar.

1. General Information

Microsoft PowerPoint is a presentation program, created by Robert Gaskins and Dennis Austin at a software company named Forethought, Inc. It was released on April 20, 1987, initially for Macintosh System Operating system based computers only. Microsoft acquired PowerPoint for about \$14 million three months after it appeared. This was Microsoft's first significant acquisition, and Microsoft set up a new business unit for PowerPoint in Silicon Valley where Forethought had been located.

PowerPoint became a component of the Microsoft Office suite, first offered in 1989 for Macintosh and in 1990 for Windows, which bundled several Microsoft apps. Beginning with PowerPoint 4.0 (1994), PowerPoint was integrated into Microsoft Office development, and adopted shared common components and a converged user interface.

PowerPoint's market share was very small at first, prior to introducing a version for Microsoft Windows, but grew rapidly with the growth of Windows and of Office. Since the late 1990s, PowerPoint's worldwide market share of presentation software has been estimated at 95 percent.

Aims and objectives of the Workshop

To provide knowledge to the students i.e. What can you do with PowerPoint?

PowerPoint gives you the ability to share your presentation with others in real time on the web. Also, students can understand: - Custom animation, Add photos, videos and sound effects, Save as a webpage, Print presentations as handouts, Embed YouTube videos

Description About the Program:

Department of Chemistry and Internal Quality Assurance Cell of Rajee Ramrao Mahavidyalaya jointly organized One Day National Workshop on **“How to prepare the best power point presentation”** on 26th August, 2019.

Total 49 participants registered for the workshop. The workshop was inaugurated at 04:00 Pm with the inspiring message of Sanstha Prayer. For the virtual inaugural function, Hon'ble Prof. Dr. V. S. Dhekale, the principal of Rajee Ramrao Mahavidyalaya, presided over the session. Mr. G. D. Salunke, presented welcome note. Mr. S. R. Kulal IQAC Coordinator of workshop announced the inauguration of the webinar and introduced the resource person.

Mr. D. A. Kumbhar (Asst. Prof. Raje Ramrao Mahavidyalaya, Jath) shown different techniques used to prepare best power point presentation. Hon'ble Prof. Dr. V. S. Dhekale, the principal of Raje Ramrao Mahavidyalaya, delivered presidential address with a special emphasis on the growth and contribution of Shri Swami Vivekanand Shikshan Sanstha, Kolhapur for the development of society and also the importance of Pharmaceutical Industries. At the end Asst. Prof. Mr. K. K. Rangar proposed vote of thanks while all responsibilities of anchoring effectively done by Dr. S. R. Kulal.

BRIEF SUMMARY OF NATIONAL WORKSHOP

Internal Quality Assurance Cell (IQAC), Raje Ramrao Mahavidyalaya, Jath successfully organized One Day National Workshop on “Intellectual Property Rights (IPR): Code of Ethics in Sports” on Thursday, 18th Dec., 2019. In order to familiarize students, teaching and nonteaching faculty with various code of ethics in sport sector, the present workshop was conducted by the college.

Total 49 participants actively joined the workshop. The keynote speaker Mr. Almar Thomas Pattern (Head, Volleyball Life Sports Academy, Chennai Tamilnadu) delivered an informative keynote talk. Mr. Pattern laid special emphasis on various essential standards of ethics in sport, as well as an array of good customs, good practices and a framework of human values in the fields of sport. He also focussed that A code of ethics is a formal document outlining the standards and values that a sporting organisation intends to abide by.

In the second technical session, the resource person Prin. Dr. V. S. Dhekale underscored that the sports industry is an ever-growing global spectacle, relevant to every society. It is a culmination of games, entertainment, commercial business, and culture. The role of **IPR** is noteworthy in the sports domain. Further, Prin. Dr. V. S. Dhekale also elucidated and explained the importance of IPR in the sport sector. Dr. S. R. Kulal, the organizing secretary welcomed the resource persons. Dr. M. B. Sajjan proposed vote of thanks. In brief, it was really a useful, beneficial, informative national workshop for the college students, teaching and nonteaching faculty.

Outcomes

One Day Workshop on “*Journalism and Translation*”

One Day Workshop on “*Journalism and Translation*” helped students in various ways. They became familiar with the journalistic translation. They also learnt that it is the type of translation used notably in newspapers. They also learnt that various job opportunities such as Journalistic translation research, translator for books, literary writing and fairly new areas of research. Students became aware about the journalist translates the information linguistically from source language to English. They became familiar with the history of translation as translations started appearing in newspapers as early as the 17th century.

Students learnt of translation as a skill and science. They also learnt that translation is necessary for the spread of information, knowledge, and ideas. It is absolutely necessary for effective and empathetic communication between different cultures. Students also learnt that the translation is also critical for social harmony and peace. Students learnt various things like knowledge of good grammatical skill for writing an article from one language to another caring for the grammar correction and precision of the content. Students learnt various jobs in journalism such as editor.

In brief, it was a fruitful workshop in the field of journalism and translation for students.
