2018-19

PREFACE

AICTE, a Statutory Body of Government of India is executing its mandate as a true facilitator for its stakeholders. The journey of AICTE since its inception has been exhilarating more so during last 3 years. Several proactive measures for the planned and qualitative growth of technical education have been initiated as well as effectively implemented. The year 2018-2019 has been a year of great transformation in the educational scenario. The Council has undertaken major activities during this year. AICTE prepared 'Short & Medium Term' Perspective Plans for Engineering Education in India which focusses on the demand for courses on Artificial Intelligence (AI), Internet of Things (IoT), Machine Learning, Block Chain, Robotics, Quantum Computing, Data Sciences, Cyber Security, 3D Printing & Design and other emerging technological areas. MHRD, Government of India established an Innovation Cell in AICTE to support new ideas of students. The Smart India Hackathons-2018 & 2019 have been successful with innovative solutions provided by our young minds on the problem statements received from various Ministries and Industries. Another stride was AICTE's 1st International (Singapore-India) Hackathon, organized in Nov 2018 at NTU Singapore, aimed at "Smart Campus".

Other ingenuities to mention are adoption of AICTE model curriculum matching industry preferences for UG, PG, programs in Engg. & Tech. and MBA/ PGDM program by Universities and Institutions. The three-week Student Induction Program having a component of universal human values has been well-received by the students which depicts the positivity of this program. Exam reforms have been introduced to avoid mere age old rote learning by students. Mandatory internships for students to enhance their employability skills is one of the major steps initiated and various MoUs have been signed in this domain by AICTE. The 'Teacher Training Policy' aimed for providing training to existing faculty and new incumbents has made MOOCs based Training mandatory for incumbent teachers. SWAYAM MOOCs Platform is being used to train teachers through Annual Refresher Programme in Teaching (ARPIT) which aims to enhance the professional skills of faculty by way of online courses in various disciplines developed by the domain experts.

Through the flagship programme, Unnat Bharat Abhiyan, AICTE has developed creative and sustainable educational eco-system linking it with the Adarsh Gram Yojana (SAGY) successfully aimed for rural upliftment. The Council has instituted the SAGY awards for motivating, recognizing and raising their performance in the specific domains leading to significant contribution for the growth and development of villages & country. AICTE has also initiated awarding institutions for 'Clean and Smart Campus'; and the 'Chhatra Vishwakarma Awards' for students annually. AICTE has also partnered with Wheebox Employability Skill Test (WEST) for students of AICTE approved institutions with consortium partners, United Nation Development Programs (UNDP), Confederation of Indian Industries (CII) & Association of Indian Universities (AIU) to identify the strengths and improvement areas of their students. A

'Margdarshak' scheme is being implemented by AICTE in full spirit for the eligible institutions to apply for accreditation which is utmost essential for augmenting the quality of technical education.

International collaborations through the Canada-India Acceleration Program (CIAP) formulated as part of MoU signed between AICTE and Carleton University to support and promote international collaborations between India and Canada, and similarly with South Korea are enhancing collaborative programs in the area of start-up and innovation development in technical institutes. This has ventured into annually 10- Canadian and 10- Indian Women Led Tech Start-ups which will be supported in the next 5-years. MITACS and AICTE established a MoU to foster cross-border partnerships on creating a platform that open the path for collaborative research between Canada and India.

AICTE has a mantra for a transparent and a robust system of governance with portals for approval process, vocational program, internship and other activities and initiatives. The vision of the organization is to see itself as a world class body in technological and socio-economic development of the Country by enhancing the worldwide competitiveness of technical manpower. As an objective regulator, the Organization has adopted transparent and accountable strategy in its functioning. Dr. A.P.J Abdul Kalam quoted *"Learning gives creativity, Creativity leads to thinking, Thinking provides Knowledge, Knowledge makes you great"* which our students should inspire from.

AICTE is receptive to the technological changes happening across the global scenario and believes in framing new policies & initiatives and augment the existing ones by scheduling workshops, conferences etc. providing a platform of discussion and inputs from stakeholders. It has been and shall always be the endeavour of AICTE to bring the best educational system for its students and be the epitome of developing bright, noble and humble brains.

1.2.2 QUALITY INITIATIVES OF AICTE:

AICTE Council in its 49th meeting held on March, 14, 2017 approved a package of measures to provide a thrust to improve quality of technical education in the country. Amongst the quality initiatives approved by the Council were faculty certification programme, exam reforms, mandatory internship, induction program for students, revision of model curriculum to mention a few. Highlights of the quality initiatives taken during 2018-19 are as follows.

➤ **Model Curriculum:**

At present teaching learning methodologies are being guided by the policies of Affiliating Universities, since most of the technical institutions are affiliated to Universities. These Universities prescribe curriculum and teaching practices in all such technical Institutions. Excellence in engineering education results from innovative teaching techniques and effective instructional materials.

Realising the need to revise and update the Curriculum of UG and PG Courses in Engineering education, AICTE has prepared outcome based model curriculum for Undergraduate and Post Graduate courses in Engineering and PGDM/MBA Courses. Student internship is being made mandatory whether in corporate world or at Institutes of National Importance, National Laboratories or in Development Sector. Value education has been made an integral part of Course Curriculum. This is a suggestive curriculum and concerned universities/ institutions are allowed flexibility in readjustment of courses/credits in their programs.

Most of the technical universities have adopted the AICTE model curriculum except a few, who have informed that they will implement it from the academic year 2019-20. The important feature of the model curriculum is that the number of credits have been reduced to 160 from 200-220 at UG Level in Engineering with emphasis on choice of electives, life long learning and experiential learning and it is in line with the requirements of industry 4.0. The model curriculum in the eight disciplines for Diploma are under preparation.

➤ **Mandatory Internships:**

All India Council for Technical Education (AICTE) has formulated its Internship policy for students of Technical Education. Internships have been mandated to ensure that technical students get exposure to the industrial environment, current technology relevant to their subjects and opportunities to learn, understand and sharpen real-time technical and managerial skills. Board of Apprenticeship Training (BOAT), Mumbai, Chennai and Kanpur and Board of Practical Training (BOPT), Kolkata have joined hands for facilitating Internships. AICTE has constituted a National Level Steering Committee to monitor the performance and Progress of Internship Programs throughout the country. The first Meeting of the committee was held on 11th March, 2019. **Four Awareness workshops** were organized by AICTE at 4 regions. Approx. 1,500 Training and Placement Officers of AICTE Approved Institutions and Industry representatives attended the programme. **One AICTE leadership conference** on the theme of Industry-Academia Interaction was organized on 20th Nov, 2018. Total 130 Industry Leaders and Academic leaders/ Vice Chancellors etc. attended the meeting for joining hands for facilitating Internships.

➤ **Induction Program:**

A three-week mandatory induction program for students has been designed to be offered right at the commencement of the first year at UG Level in Engineering and classes will begin after this induction program. The purpose of the program is to make the students feel comfortable in their new environment, set a healthy daily routine, create bonding in the batch as well as between faculty and students and sensitize students to societal challenges. The induction program is now a part of the model AICTE UG Curriculum of Engineering. A budget of Rs. 6.00 Crore was approved by the council for this purpose. An Induction Cell has been established at AICTE to monitor the induction activities and National Level Coordination Committee has been set up to coordinate training of Faculty members on “Student Induction Program” for implementing the same in technical institutions. 80 workshops have been conducted across the country in which 9000 faculty members participated. AICTE is taking feedback of students, faculty members and institutions on induction program. So far more than 65,000 students, 24,750 faculty members and 952 institutions have submitted feedback.

➤ **Exam Reforms:**

Future engineering graduates not only need to be knowledgeable in his/her own discipline, but also need a new set of soft, professional skills and competencies. The achievement of objectives and program outcomes are crucial and needs to be proven through accurate and reliable assessments. They must not only assess student’s achievements (and grades) but also measure whether the desired learning outcomes have been achieved. The exam should test the understanding of the concepts and the skill application of knowledge, synthesis, analysis, creativity & innovation. With a view for development of a suitable exam format, AICTE constituted a committee in this regard. The committee finalized the policy on Exam Reforms to be adopted by the Institutions and Universities.

AICTE is conducting workshops on Exam Reforms for Controller of Examinations, Deans and Senior Faculty members of various universities and institutions. 10- Workshops have been conducted across the country in which 1500 faculty participated. The faculty trained through the workshops are expected to train faculty of their respective institutions.

➤ **Perspective Plan:**

The committee constituted under the Chairmanship of Shri. BVR Mohan Reddy, Chairman, Board of Governors, IIT, Hyderabad submitted its report on Medium Term Perspective Plan for Engineering education and it was discussed in the meeting of the EC on 27th December 2018 and the EC approved the same.

The main recommendations of the committee were

- i) Courses on AI, IoT, Block chain, Robotics, Quantum Computing, Data Sciences, Cyber Security, 3D Printing & Design and other emerging technological areas must be included in the UG/PG Program in Engineering.
- ii) Greater focus on multi-disciplinary courses by reducing the seats in conventional disciplines and converting the existing seats into these courses.

Accordingly, AICTE decided that no new colleges in conventional disciplines will be allowed from the academic year 2020-21 and NITTTR Chandigarh was given the responsibility to prepare curriculum for the above 9 (nine) courses who submitted the same & were also uploaded on the AICTE website.

➤ **Teachers’ Training Policy:**

AICTE has formulated a comprehensive teacher’s training policy and proposed the following eight modules for incumbent as well as in service teachers.

1. Orientation towards Technical Education & Curriculum Aspects
2. Professional Ethics & Sustainability
3. Communication Skills, Modes and Knowledge Dissemination

4. Instructional Planning & Delivery
5. Technology Enabled Learning and Life-long Self-learning
6. Student Assessment and Evaluation
7. Creative Problem Solving, Innovation and Meaningful R & D
8. Institutional Management & Administrative Procedures

NITTRs were asked to prepare MOOCs on the above mentioned eight modules. The modules have since been prepared. Modalities for implementation and awarding of certificates on successful completion of the eight modules are being worked out. This Teachers Training Policy is an integral part of 7th Pay revision Gazette notification for Technical Teachers.

This Regulation

known as 'AICTE Regulations for Entry and Operation of Foreign Universities in India imparting technical education, 2005' were formulated primarily to check and avoid illegal entry of unscrupulous persons using/misusing the name of Foreign University/ Institution for unlawful gains. To safeguard the interest of all stakeholders, a public notice was issued in all leading newspapers on 5th May, 2005 directing the foreign universities operating in India to comply with the above regulations. Communications were sent to all Indian Institutions directing them to comply with regulations 2005. These regulations were notified in the extraordinary gazette of India on the 25th May, 2005. During the period under report, the following new institutions have been accorded registration by AICTE for conducting programmes in collaboration with foreign university/institution:

3.6 DEEMED-TO-BE /DENOVO DEEMED-TO-BE-/ PRIVATE UNIVERSITIES

Universities including Private universities established by the State Legislations do not require prior approval from AICTE for starting faculties/courses. However, universities, deemed universities including the universities established by the State Legislature imparting technical education are required to comply with the norms and standards prescribed by AICTE from time to time.

In pursuance of the UGC letters for conferment of deemed to be university status to the institutions in the light of Ministry of Human Resources Development notification no. F. No. 2-1/2006U.3 (A), dated 5th April 2006 and as per provisions contained in Section 20(1) of the AICTE Act, a visiting team was sent by AICTE for on the spot assessment of these institutions. As per directives of the MHRD letter "AICTE will nominate a representative on the inspection committee of UGC; the person so nominated by the AICTE may; in addition, Head a team of the AICTE on the same day and such other person would not be part of the UGCs team but merely to assist the nominee of the AICTE on the UGC committee. The nominee of the AICTE on the UGC committee could give his or her report to the Chairman AICTE in the Performa prescribed by the AICTE and also on any additional point required by the UGC; which should then be forwarded by the AICTE to the UGC. UGCs Committee would incorporate the comments of the AICTE in its report before the Commission so that the Commission could take appropriate decision in the matter before making any recommendation to the MHRD. It has been felt that the above arrangement would serve the purpose of a de facto joint inspection while at the same time satisfying the requirements of the AICTE act regarding its own inspection. Such an arrangement would also ensure that the comments of the AICTE's nominee reflect adequately the comments of the Council and are not merely the individual perceptions of the nominee. This would also satisfy the directions given vide this Ministry's orders of the 5th April, 2006, wherein

consultation with statutory Councils has been mandated before the UGC forwards its recommendations to the Central Government”

In view of the above direction of MHRD and on the request of UGC during the year 2018-19, AICTE has nominated a representative to be part of the UGC team along with a panel of Experts to assist the UGC nominee to assess the physical and academic infrastructure for conferment of Deemed-to-be /Denovo Deemed-to-be- Private Universities status and for reviewing the physical and academic infrastructure and performance of the existing Deemed/ Private Universities. The visit to the Universities has already been conducted and reports forwarded to UGC. Accordingly, **AICTE has granted approval to 85 Deemed/Private Universities for AY 2018-19.**

Further, 11 Standalone Institutions have also been granted approval for conducting courses through ODL mode in Academic Year 2018-19.

3.7 THE ACTIVITIES OF AICTE-STANFORD PROJECT ON STUDENT LEARNING ASSESSMENT FOR THE YEAR 2018-19

The All India Council for Technical Education (AICTE) signed MoU with Stanford University on February 6, 2017, for conducting a survey on Student Learning Assessment to find out skill levels and gains of socially-disadvantaged students like women, SC/ST/OBC rural students as compared to economically advantaged students in India.

Accordingly, the Stanford survey was conducted in three phases in 42 randomly selected AICTE approved Technical Institutions. These are: Pilot Survey, Baseline survey and end line survey.

The “pilot survey” was conducted (February 2017 – June 2017) in which approximately 5,000 students, 600 faculties and 30 department heads (HODs) were involved. This pilot test was conducted for first semester Engineering students in ECE and CSE streams, for the Academic Year 2017-18.

The “baseline survey” was conducted (June 2017 - April 2018) in 42 randomly selected AICTE approved institutions where in Stanford survey team monitored approximately 18,000 students (1st and 3rd year), 3,500 faculty and 100 department heads. During this survey, the Stanford Survey team found that the Disadvantaged Students grasp Maths, Physics faster than the Privileged ones.

Even as socially-disadvantaged students remain substantially behind in all subjects in the first year, they gain significantly more from first year to third year. In non-elite Institutes, these students begin to catch up in maths, physics and quantitative literacy by the time they are in third year.

The motive behind this survey is to reduce disparities among different category of students and benefit colleges and students by understanding and improving students learning as well as understand different institutional characteristics, faculty characteristics, teaching practices that contribute to student behaviour.

On completion of “end-line survey” in May 2019 for same set of students, faculty and HODs in 42 randomly selected Engineering colleges, Stanford University will submit a consolidated report to AICTE to frame a policy for the benefit of all the category of students, faculty and Technical Institutions.

These regulations also have a provision for taking action against such unapproved technical institutions.

Provided further that any Institution offering Technical Program without approval of the Council, shall be termed as unapproved if

- It is started without prior approval by the Council
- It is working in temporary location / at location not approved by the Council
- It is declared as "Unapproved" by the Council

The institutions conducting unapproved courses have been directed from time to time through Public Notices and individual letters under intimation to concerned state government to seek AICTE approval for conducting of technical education programmes or to close down.

Provided further that any Technical Institution, which has already started without following AICTE approval procedure, wishes to submit an application/proposal, it shall be considered as new Technical Institution. For such purpose, they shall apply as per the provisions of Chapter I of Approval Process Handbook.

The representation submitted by the institutions in response to the AICTE letters furnishing clarification and justification for removal of their name from the list of unapproved institution are being examined by a Hearing Committee and based on recommendations of this committee the names of suitable/eligible institutions are being removed from the list.

The Council maintains a list of unapproved Institutions based on the information received from various sources and publishes for the benefit of general public on its website from time to time. A list of 277 and 116 unapproved institutions in Technology & other areas and Architecture Institutes respectively, as on 31st March 2018 running technical education programs/ courses without prior approval of AICTE has been published on AICTE website.

Schemes for Students

4.1 INTRODUCTION

A plethora of schemes are being run for all-round development of students studying in AICTE approved institutions. Support to Students for Participating in Competitions Abroad (SSPCA) scheme provides opportunity to students to prove themselves at the international level competitions held abroad through a financial support given by AICTE. Students are also being given an opportunity to do research internship at Canada. Some other schemes provide scholarship to PG students, girl students and differently abled students.

4.2 PG SCHOLARSHIP

AICTE awards Post Graduate scholarship to ensure adequate number of post graduates Engineers, Architects, Technologist and Pharmacists in the country. Under PG scholarship, grant is provided for GATE/GPAT qualified students @ Rs. 12,400/- month through its Post Graduate Scholarship Scheme. PG Scholarship is awarded to students admitted in Master of Engineering, Master of Technology, Master of Architecture and Master of Pharmacy courses in AICTE approved Institutions and AICTE approved University/Departments.

- On bringing under the net of Direct Benefit Transfer Scheme (DBT), the PG Scholarships are being disbursed directly into the Bank accounts of the beneficiaries throughout the Country from the academic year 2012-13 onwards.
- PG Scholarship to eligible students is released in a swift, safe and secured manner. Steps have been taken to release PG Scholarship in the bank account of students which are duly Aadhaar seeded.
- PG Scholarship is released directly to beneficiary in his/her bank account thus, eliminating the chances of payment to fake/ghost claimants.
- Paper work has been minimized. All the procedures related to the up-loading of data/PDF copy of the mandatory documents are provided online by the Institutes/Students in a short span of time.
- Objections/short comings, if any, are notified through SMS and also on the web portal, for correction thereof. This has been resulting in cost effective and time saving measure with minimization of manpower.
- A helpline has been made available to the students for raising their grievances.
- Frequently asked questions (FAQs) have also been uploaded on the portal for reference of the Students/Institutions.
- There is a transparency in delivering the services as the beneficiaries/College/Institute and University can check up the latest status/position by visiting portal of the AICTE from time to time.

During the financial year 2018-19 an amount of Rs. 346.62 crores to 34497 beneficiary students was disbursed by AICTE directly into their bank accounts through DBT. Category wise distribution of beneficiaries and amount released during 2018-19 is shown in table 4.1.

Cooperation under the MoU shall continue for five years from the date of signing of MoU.

Under this program students from AICTE approved institutions are sent for internships in various universities of Canada. This program is jointly funded by AICTE and MITACS. The total cost of the program is \$12000 CAD/student and MITACS contribute \$9000 CAD and AICTE support \$3000 CAD per student.

The MITACS had invited applications from students for Globalink Research Internships directly on its por-

tal in the year 2018-19 and 856 applications were received. Out of 856 applications, 64 students were selected by MITACS in consultation with AICTE. Finally, 60 students out of 64 have joined the programme in the year 2019-20. Funds of Rs.96,82,200/- are being released to MITACS Canada for conducting the internship programme in the year 2019-20. Institutional Development Schemes

Through clause 10(C) and 10 (D) of the AICTE Act, the council promotes for the overall development of infrastructural facilities, research and innovation, mentoring, adoption and adaptation of new technologies in order to meet the developmental standards in technical educational institutions of the whole country.

To achieve the above benchmarks, the council has various schemes in implementation viz.

1. HOSTEL FOR SC/ST STUDENTS
2. MODROBS.
3. MODROBS (RURAL)

These schemes undergo an annual review process through monitoring committee in order to ensure its effective implementation and proper fund utilization process.

7.1 CONSTRUCTION OF HOSTEL FOR SC/ST STUDENTS

Considering the accommodation problems being faced by SC / ST students in taking admissions in good engineering colleges, AICTE has launched a scheme for providing financial assistance for construction of hostels for boys and girls depending upon the need of the Institution. The scheme aims to support Government / Government-aided engineering colleges for construction of girls / boys hostels for providing residential accommodation for students / researchers belonging to SC / ST category.

The criteria for Government / Government-aided engineering colleges / University Departments should be in establishment for last five years and should have more than 150 SC / ST students each year on roll for the last three years. The hostel for SC / ST students be constructed within 03 years and the maximum limit of grant is Rs.3.00 crores to be disbursed in 03 instalments for construction of hostel of not less than 1200 sqm.

This grant was increased from Rs.2.00 crores for construction of not less than 1040 sqm. to Rs.3.00 crores for a construction of not less than 1200 sqm. due to escalation of cost of construction

7.2 MODERNIZATION AND REMOVAL OF OBSOLESCENCE(MODROBS)

The main objective of the scheme is to provide financial support to institutions to equip their laboratories with modern equipment and upgrade infrastructure facilities, keeping in view the rapid advancements in technology. Institutions were provided funds for replacement of obsolete equipment with modern, state-of-the-art equipment to ensure quality in educational process. The equipment financed under the scheme could be ideally used for up-gradation of equipment in existing laboratories, enhancement of performance parameter specification of existing equipment, incorporation of latest development in the field and replacement of old depreciated equipment by modern equipment.

Funding for this scheme is limited to Rs.20 lakhs. After an initial scrutiny at the Bureau level, the proposals were evaluated by duly constituted expert committee, based on the recommendations of the expert committee, the Council approves grant-in-aid under this scheme. During 2017-18, total 213 proposals were sanctioned grants amounting of Rs.26.95 Crore, the region wise distribution of which was subsequently released during FY 2018-19 are shown in Table 7.3 and Fig.7.1

State wise distribution of grants released under MODROB scheme during FY 2018-19 is given in Table 7.3 & Fig.7.1.

7.3 MODERNISATION AND REMOVAL OF OBSOLESCENCE FOR RURAL AREAS-MODROB (RURAL)

A special drive is undertaken by AICTE under MODROB scheme for modernising laboratories of technical Institutions operating in rural areas of the country by providing grant for procuring modern equipments. The equipment financed under the scheme will help the institutes of rural areas of the country to upgrade the equipments in laboratories, incorporation of latest development in the field and replacement of old depreciated equipment by modern equipments.

Other Schemes & Activities of RIFD Bureau

8.1 MANDATORY ACCREDITATION FOR AICTE APPROVED INSTITUTES

As per the directives of Ministry of Human Resources and Development, at least half of all the programs in the technical institutions shall be accredited through the NBA before 2022. Unless there is credible progress each year, the approval of the institutions can be refused. In order to assist the institutions in meeting the mandatory requirements for applying for accreditation, a separate mechanism will be put in place. In order to support institutions for getting their programs accredited, AICTE has designed following schemes:

8.2 MARGDARSHAN SCHEME

It is a scheme where an Institute of repute plays the role of a Mentor by sharing its existing resources including human resources and serves as the hub to guide to the technical institutions those are comparatively younger and trying for getting accreditation. The best practices in teaching learning process followed in mentor institute are diffused to mentee institutions so that over a period of time the programs of mentee institutions will get accreditation by NBA. Eventually, the Hub 'n Spoke system will allow for inter-hamlet information sharing.

The Maximum fund limit is Rs. 50 lakhs (Rupees Fifty Lakhs Only) per institution to be sanctioned to the Mentor institutes for carrying out various activities like FDPs, Workshops, Conferences and expert lectures etc. Duration of the project is 3 years. AICTE approved Govt./Govt. aided/ Self-financed/University departments with 15 years in existence are eligible for Mentorship.

8.3 MARGADARSHAK SCHEME

In this scheme Mentors (Margadarshaks) are identified for institutions which are yet to get NBA accreditation. These 'Margadarshaks' can be serving or preferably superannuated, willing and motivated teachers having good knowledge of the process of accreditation and can devote adequate time to make required visits to guide these Institutions. These margadarshaks will frequently visit the mentee institutions and guide them for their improvement in quality so that institutions may be able to get accreditation by NBA. As mentioned earlier, by the year 2022, it is envisioned that the percentage of technical programmes accredited should increase from 16% to 50% through these two schemes.

AICTE had organized one-day workshop of the Margadarshaks on 26.02.2019 in which 48 Margadarshaks have participated. This workshop was addressed by Chairman, AICTE and Chairman, NBA on quality of technical education and vision for next 5 years. Total of 296 Margdarshaks have been shortlisted and have been allocated with mentee institutions.

8.4 INTERNATIONAL ISSUE

Indian Engineers working in Kuwait were undergoing difficulties in processing their residency Visas and continuation in jobs due to the Government of Kuwait's new policy of retaining only engineers from accredited institutions. The Public Authority for Manpower (PAM) of Kuwait issued an administrative circular in March, 2018 instructing the labour department not to issue work permit to the expatriate engineers unless they provide No Objection Certificate (NOC) issued by the Kuwait Society of Engineers (KSE).

As a result, there was huge disturbance in the lives of families and children of Indian Engineers employed in Kuwait as they were not able to obtain the renewal of their residency visas and were required to leave the country.

In order to find a solution to the issues faced by Indian Engineers with the Kuwait Government and to resolve the issues amicably and to enable a bilateral agreement between both the Governments to avoid any future ambiguity, a visit from 25th to 30th June 2018 by a high level delegation from Kuwait Government to India was organized.

Fig. 8.2: Kuwait Delegates' meeting with AICTE Officials

A list of Institutes/ Universities/ Professional Societies offering Technical Programs in India, arranged alphabetically district wise and jointly signed by Chairpersons of AICTE, UGC & NBA was provided to the Government of Kuwait.

An Indian delegation led by Dr. Sukhbir Singh Sandhu, Additional Secretary (TE), MHRD also visited Kuwait 5th March 2019 to hold further discussions with authorities of Kuwait on the issue of Indian engineers' degree accreditation.

Fig. 8.3: Meeting held in Kuwait to Resolve the issues pertaining to Employability of Indian Engineers in Kuwait

The following additional list of Institutes was handed over during the meeting: -

1. List of top 200 NIRF technical institutes/universities for last 3 years excluding (minus) NBA accredited institutes.
2. List of NAAC approved technical institutes excluding (minus) NIRF institutes as above and excluding (minus) NBA accredited institutes.
3. List of all premier institutes (IITs/ NITs/ IIITs/ Central universities etc.)

The issue has since been resolved to a larger extent. Kuwait authorities have been generous and have decided to absorb those not meeting some of the criterion on alternative positions that has helped in avoiding relocating Indian families.

AICTE-MITACS global link research internships scheme:

AICTE has signed a Memorandum of Understanding with MITACS Canada to foster cross-border partner-

ship focused on creating a platform that opens the path for collaborative research between Canada and India to a wider pool of student talent in India. Cooperation under the MoU shall continue for five years from the date of signing of the MoU.

Under this program student from AICTE approved institutions are sent for internships in various universities of Canada. This program is jointly funded by AICTE and MITACS. The total cost of the program is \$12000 CAD/student and MITACS contribute \$8000 CAD and AICTE support \$3000 CAD per student.

MITACS had invited applications from students for Globalink Research Internships directly on its portal in the year 2018-19 and 856 applications were received. Out of 856 applications, 64 students were selected by MITACS in consultation with AICTE. Finally, 60 students out of 64 have joined the programme in the year 2019-20. Funds of Rs.96,82,200/- is being released to MITACS Canada for conducting the internship programme in the year 2019-20. Details of students who have joined AICTE-MITACS-GRI Programme in different institutions of Canada are given in the Table No. 8.2.

We have audited the attached Balance Sheet of the All India Council for Technical Education (Council) as at 31st March 2019, Income & Expenditure Account and Receipts & Payments Account for the year ended on that date under Section 19(2) of the Comptroller and Auditor General's (Duties, Powers & Conditions of Service) Act, 1971 read with Section 19 of the AICTE Act, 1987. These financial statements include the accounts of 10 regional offices of AICTE. These financial statements are the responsibility of the Council's management. Our responsibility is to express an opinion on these financial statements based on our audit.

2. This Separate Audit Report contains the comments of the Comptroller and Auditor General of India (CAG) on the accounting treatment only with regard to classification, conformity with the best accounting practices, accounting standards and disclosure norms, etc. Audit observations on financial transactions with regard to compliance with the Law, Rules & Regulations (Propriety and Regularity) and efficiency-cum performance aspects, etc., if any, are reported through Inspection Reports/CAG's Audit Reports separately.

3. We have conducted our audit in accordance with auditing standards generally accepted in India. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements. An audit includes examining, on a test basis, evidences supporting the amounts and disclosure in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall presentation of financial statements. We believe that our audit provides a reasonable basis for our opinion.

4. Based on our audit, we report that:

i. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit.

ii. The Balance Sheet, Income & Expenditure Account and Receipts & Payments Account dealt with by this report have been drawn up in the format prescribed by the Ministry of Human Resource Development, Government of India vide order No. 29-4/2012-FD dated 17 April 2015 subject to the observations in the report.

Hqrs in August 2016 and AICTE Regional Office Bhopal in January 2017) and put to use but the same have not been capitalised for want of final bills. This has resulted in understatement of Fixed Assets and overstatement of Loans, Advances & Deposits. Further, depreciation (at the rate of 2%) has not been charged on these buildings by the Council during the years 2016-17, 2017-18 and 2018-19.
