## **1 About the Institute**

International Institute of Information Technology Bhubaneswar owes its origin to the desire of the Government to establish a world-class institute of Information Technology in the state. The institute has been converted into a unitary university by the Government of Odisha on 20<sup>th</sup> January 2014.

## **2 Campus**

Our campus is at Gothapatna in the outskirts of Bhubaneswar city. It is a compact 36 acres green campus which houses classrooms, laboratories, library, hostel, faculty living quarters, sports facilities, auditorium, guesthouse, and more. The campus is designed to be fully residential. There are separate hostels for boys and girls. There are also recreational, sporting facilities and shopping arenas for the basic needs of the students.

For a knowledge-based organization, the library is a vital asset. The IIIT library has an excellent collection of books and journals on Technology, Management, and related subjects. The collections also include working papers, audiovisual resources, dissertations, summer projects, annual reports of corporate houses and bound volumes of periodicals.

Besides the print materials, IIIT library has subscribed to various e-resources. Some of the notable e-resources available are all publications of IEEE Computer Society, ACM Digital Library, Springer, and Elsevier. In addition, the library has a good collection of e-books.

## **3 About the Programme**

The objective of our B.Tech programs is to prepare students for two purposes. One is to make them successful in the industry. The other objective is to provide knowledge and motivation for seeking a career in higher studies.

The curricular structure aims to achieve these goals. The curriculum blends topics from basic sciences and humanities with technical subjects to provide the students with an inter-disciplinary perspective. The curriculum desires to develop hard as well as soft skills among the students so that they can be productive in a team.

The curriculum consists of compulsory, elective subjects, and projects. The institute also provides co-curricular and extra-curricular training programmes for students to learn new techniques, technologies, and skills.

## **4 Campus Placement**

The institute takes immense care to prepare its students to be employment ready. Curricular and extracurricular programmes equip the students with knowledge and confidence. Competitions hone the competitive spirit of the students.

Placement cell reaches out to the potential recruiters to visit the institute for campus recruitment. The effort is to increase the diversity of the recruiters, improve the compensation package and broaden the profile of the jobs. Our efforts have brought satisfactory results. All the eligible students have found a job through campus placement in the previous academic years. For further information regarding placements the following link may be visited: <https://www.iiit-bh.ac.in/placements/>
