STUDENT SATISFACTION RATINGS

## [Review on MPKV pune college](#)

**Placement -**

7 /10

In this college, companies don't visit. Students who want to do the job have to give interviews for joining the company. I have planned to get a master degree after bachelors and start my own business and become successful.

Government sponsorship and location of college as at the center of pune city are major factors that attract me. College is linked with MPKV agriculture university, so research opportunities are quit higher.

**Placement -**

9 /10

College provide nice placements in processing industry, fertilizer companies and start ups. Alumni of college had connections in national and multinational companies. Most of the alumni are in civil servants so college invite them to guide students.

[My college review](#)

**Admission -**

After I passed my High school. I immediately appeared for the common test to apply for the course of B.Tech where I scored enough good rank to get admission form in this college. Since I got good rank I got admission in this college.

**Placement -**

9 /10

The organization offers position help to the understudies for looking for the best employment in the business. Alongside that, the college likewise gives preparing and vocation direction administrations to shape the profession of understudies by building up their characters. The foundation arranges different projects for improving the abilities of the understudies and cause them to plan for up and coming difficulties.

STUDENT SATISFACTION RATINGS

**Admission -**

The students need to have 50% in class 12th with science stream. Other than that you also need to have English

as a compulsory subject. Those students who do not have biology in class 12th need to complete the deficiency course in order to seek admission. Admission is done on the basis of JEE/NEET/MHT-CET or AIEEE. Merit list will be prepared on the score and rank obtained by the student and on the basis of that you will be granted admission in the college.

**Placement -**

9 /10

Roles that were offered to my batch were food technologist, dietitian, food executive, nutritionist, research associate etc. Top companies such as Amul, Nestle, Cadbury, Haldiram etc visited our college every year. The highest package grabbed by one of my class mate was 10 lpa and the minimum that was offered was 4 lpa. Internships were also offered in food factories and dairy industries.

Inter library loan is provided to the students where they can take books available in other library other than the university. The library is always one and accessible to the students at a reasonable rate. Hostel capacity of 1000 students in each hostel is available. The course in horticulture gives valuable knowledge upon fruit science, landscaping & floriculture to students so that they choose the career path accordingly.

## [Good College](#)

### **Admission -**

I have already decided to get admission in this college. The application mode is offline as well as online. I registered myself online tenzin visit in the college for filling up the admission form. The selection process is basically merit based.

### **Placement -**

7 /10

Placement opportunities are there in the college but the few students are get placed. I haven't in sit for the placements but there are some of my classmates who got placed and they are earning good amount of money. Though I have done internship which is compulsory for the course. Career counseling and guest lectures are also there which guide us what to do in the future regarding caree.
