Fr. Rector's Message

Greetings!

St. Joseph's College in Tiruchirappalli has a storied history of dedicated service to society, particularly to its disadvantaged segments. Over the years, it has provided countless opportunities for students to pursue prestigious careers. The JOSEPHITE publication has faithfully chronicled the college's endeavors for the betterment of society, and it brings me great joy to extend my blessings to the staff and students of St. Joseph's, ensuring that our legacy endures for generations to come.

Reflecting on the words of St. Ignatius of Loyola, who emphasized that our purpose on Earth is to respond with love and service, the Jesuits have exemplified this ethos by providing selfless service in the field of education. The JOSEPHITE publication stands as a testament to their unwavering commitment, alongside the dedicated team of teaching and non-teaching individuals who collaborate with the Jesuits, embracing their core values. It also serves as a repository of the intellectual and academic achievements of both staff and students, showcasing their notable contributions in their respective fields of expertise.

St. Joseph's College has consistently set a high standard of excellence, serving as an exemplary institution for educational establishments nationwide. The changing landscape of academia and society has necessitated adaptations in teaching techniques and learning contexts. St. Joseph's has adeptly bridged the gap between academic excellence and economic development through a focus on social and humanistic empowerment. The institution has facilitated experiential learning opportunities and connections with like-minded academics and entrepreneurs.

I extend my best wishes to the dedicated editorial board of the JOSEPHITE publication for their painstaking efforts in documenting the college's activities. Additionally, I wish the staff and students of St. Joseph's a fruitful journey in their pursuit of knowledge, carrying the spirit of "magis" in their hearts, with the divine guidance of St. Joseph, our patron, and the blessings of Christ, our Lord.

ANNUAL REPORT

When the unprecedented Covid-19 pandemic struck the world like storm, it generated suffering of an unthinkable scale across the globe. It did not spare the field of education. Rather, it wrecked havoc on the student community by disrupting their academic and, social life and caused learning poverty. The pandemic brought into sharp focus the academic vulnerabilities of large section of the student community. Globally, over 1.2 billion in 186 countries were out of classroom during the initial phase of the pandemic. The nations of the world made desperate efforts to bring the students back into learning process by launching some form of remote learning strategies. However, the success was partial with Dramatic inequality in access to education within and between the countries. According to UNICEF, the remote learning facilities were used by less than half of the student population and the mechanism for monitoring the end-users namely students was less than satisfactory. The cumulative result was the rising learning poverty among the children of middle and low income countries. The impact of learning loss caused by pandemic is likely to continue for several years.

The Corona virus had a profound impact on the functioning of SJC. It brought about unprecedented scale of disruption in teaching, learning and assessment process. It would be no exaggeration to say that the college reinvented itself by quickly adapting itself to newer technologies and teaching methodologies. The college relied on ICT and digital intervention to adopt to the new normals of lockdown, who were learning away from educational institutions via Google and other software enabled online classes.

The College created Google Classrooms with unique institutional e-mail ids for 7,231 students and brought them onboard to ensure continual learning. At St. Joseph's College, 'Flipped Classrooms' become the order of the day, and faculty engaged in synchronous and asynchronous modes of teaching. Online classes were handled using innovative tools like Nearpod and Kahoot. During online teaching process, the faculty developed 1,912 e-content for hassle free learning.

The office of CoE undertook several initiatives like online distribution of question papers without system encryption in GCRs for CIA and ERP for Semester Examinations, digitalization and on-Screen evaluation of answer Scripts, information retrieval mechanism and automation at office of the CoE. These enabled the students to write the exams without any disturbance.

Though the college was successfully in reaching out to the students residing in urban and semi-urban locations, it faced obstacles in reaching out to the students from rural areas with poor ICT penetration. However, these students were guided to attend the online classes from nearby places with uninterrupted network connectivity.

The college is now better equipped for blended learning which is necessary to enhance entrepreneurial prospects of the student community and is confident to grab the future opportunities and ready to face future challenges.

SHIFT – II

BBA B

MASTER OF BUSINESS ADMINISTRATION (JIM)

The academic year began on 3 July 2021 with a faculty orientation workshop conducted online by Prof. Hariharan. Academic thrusts are the way of life at JIM. In spite of the on-off bouts of corona and its effects happening frequently, JIM never lost ground in taking academics to the next level. After a short course on communicative competence, and bridge courses in Accounting and Quantitative Methods, students got into the regular stream.

To increase diversity in the intake of students, JIM reached out to other parts of India through social media and emails to colleges and universities. This year, the admissions were conducted in 3 phases between April and May. It worked well since the students had a choice of selecting their month/dates and again due to word-of-mouth communication many aspirants applied for the MBA programme at JIM.

A record number of 69 lectures – online and offline were conducted despite the severe hardships faced due to Corona. This year, we were again working on our curriculum right from the start. An academic advisory committee consisting of eminent professionals from industry and business was onboarded to advise and suggest changes in the new era of business. Logistics and supply chain management was recommended as a new specialisation area from the next academic year onwards.

This year, for the first time in JIM, an e-newsletter titled "JIM CONNECT" was rolled off in November 2021. A student initiative, the newsletter enables the students to learn and write about contemporary issues in business. Parents Teacher interface was organised for both the first and second-year students regularly. JIM took this opportunity to thank them for their whole-hearted cooperation extended to JIM in all possible ways.

This year, a special place for the MDP centre and a dedicated office room for NBA and AICTE accreditations was inaugurated by Rev. Fr. Rector. JIM has started working on obtaining NBA accreditation. An external expert has been invited to advise and work on this project. The lawns on the campus were remade to add more pomp to its existing infrastructure and 2 additional kiosks were constructed this year. JIM library has more than 6500 titles and has subscriptions to 22,000 e-books and databases viz., EBSCO, J-Gate, Press Reader and India Business Insight. Two sessions per week were allotted to first-year students and organized reading time in the library was facilitated with a designated faculty. Students were mentored and meetings were conducted as scheduled. Scholarships were given to 49 students and a total sum of Rs 14,95,450/- was dispersed.

All the students gathered in specific domain clubs once a week and were involved in self-learning activities. This year, due to corona, club activities were done intermittently. Club Day with all four clubs joining together did separate events inviting other college students on 13th April 2022. The Rotaract team conducted a sports event for special children on the same day.

As in the past, JIMNESIA, a talent hunt event, was conducted to unearth the hidden talents of the students of both the first- and second-year students. An in-house sports event was also conducted this year. Both the first-year and the second-year students were taken to an Out-Bound Training (OBT) facility near Coimbatore and Chengalpattu respectively. The Village Extension Programme of JIM shares the ideals of the SHEPHERD programme of the college and tailors it to suit the learning process of JIM.

JIM saw heightened activity in faculty learning through FDPs this year. Six professors underwent FDP programmes in leading management institutes such as XLRI, IIM Indore, NITIE and others in areas such as financial analytics, digital marketing, case writing, and digital and HR analytics, to mention a few. All the faculty members attended a two-day FDP on Future Proofing B-Schools at Loyola Institute of Business Administration, Chennai to learn the best practices from LIBA. The faculty completed more than 40 MOOC courses from different platforms.

Forty-four companies visited our campus for recruitment this academic year. 104 students have been placed to date and companies are in the pipeline to recruit the remaining 8 students. 5 students opted out of placement due to personal reasons. The average salary of placed students so far is 5.00 lakhs per annum. The highest package is 10.00 lakhs for the placed students. All the students have been selected by companies for summer internship placement and the remaining will be placed before the second week of May. This year, many companies, financial institutions and banks are paying stipends to our students. This is yet another milestone that was achieved in the internship area.

For the first time, JIM got into MDP with much focus. We have conducted 30 development programmes for management and supervisory personnel coming from different industry domains such as textiles, hospitals, educational institutions and hotels. The total number trained is a staggering 1100. This is again a colourful feather to JIM's cap and now we are confident that we will be the most sought-after institute for providing quality training, especially for the SMEs and NGOs.

This year, we organised 4 conclaves in all 4 domains spread throughout the academic year. The conclaves were on the central theme of “Digitisation of businesses”. Participants from other colleges and the general public participated in good numbers. This has been very successful from a learning perspective and we wish to continue the work in the coming years too. This year, an online Union Budget analysis was conducted with experts in industry and business, analysing the pros and cons of budget.

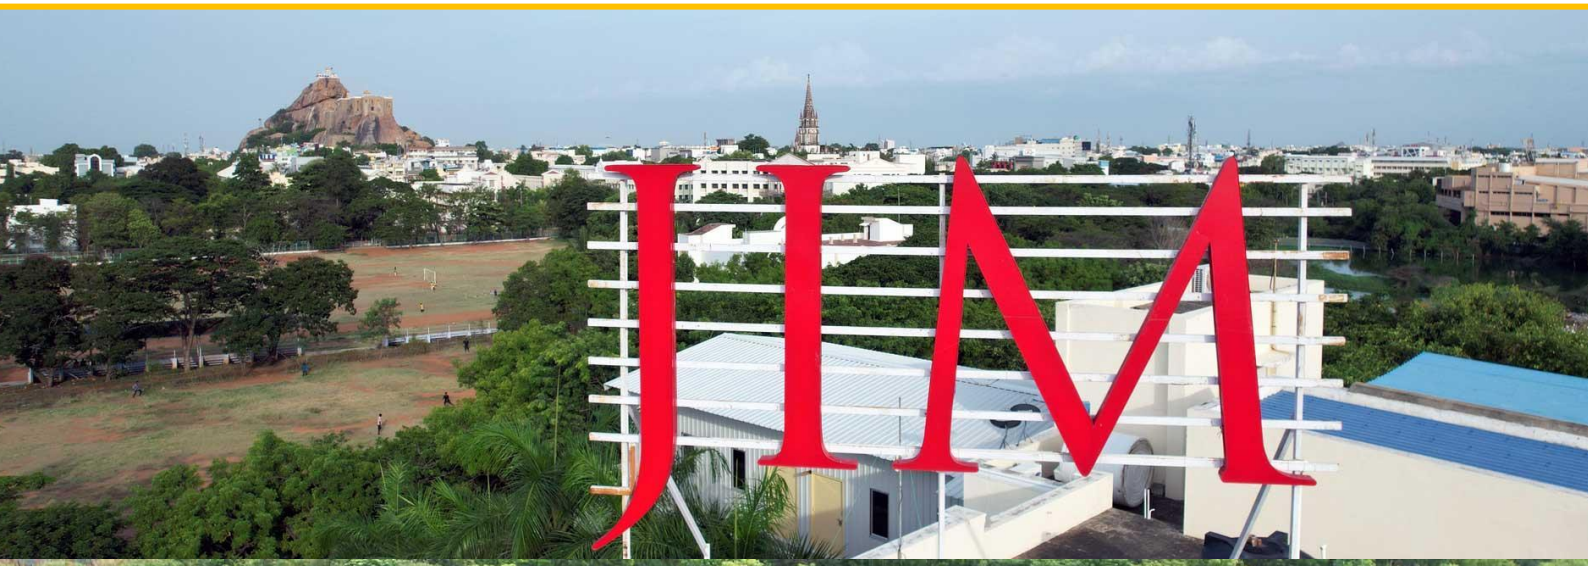

Periodical review meetings of research scholars were conducted. Two research scholars have been awarded Ph.D. and one more scholar has registered for doing Ph.D.

Faculty have gone to length this year to do research projects. A major project was awarded for conducting Excel training for the students. Around 50 students participated and benefitted from this programme.

Start-up Mela 4.0 was held on 8th April 2022. It was organised to showcase business ideas and plans of our students and also other colleges including the general public. Around 35 teams participated and cash prizes for a total of 1.5 lakhs were given at the end. This year, we have bagged a consultancy project from Jesuit Refugee Services, Dindigul. Two training programmes apart from a survey work have been conducted so far and many more are in the pipeline.

JIM usually shares its Christmas Joy with the less privileged sections of the Society. This year, we called the sanitary workers of Trichy Corporation and in particular our own zonal sanitary workers. In solidarity with them, Dresses and gifts were given for their outstanding work during corona times.
