SHARDA INTERNATIONAL SCHOOL

Class – 4 Subject- EVS

Chapter- 17 (Plants)

(23rd April 2020)

Note :- UNIT TEST -1 = CH-1 (GLOBE & MAPS)

CH- 17 (PLANTS)

DEAR STUDENTS

UNIT TEST – 1 chapter -1 (Globe and Map) has been completed in NLP online class yesterday.

All the doubts related to the chapter have been cleared by the teacher during the class. So from onwards in your online NLP class , Chapter-17 (Plants) will be started and it is already informed that it is also included in U.T-1 Syllabus.

Read the following main points of chapter-17 as introduction of our next chapter. Children don't write the following points in notebook, these points help those students who don't have books with them during this lockdown period:-

1. Food Chain :- A series of living beings each dependent on the one before as a source of food. It always start with a producer.
- 2 Consumers :- All the other beings except producer in a food chain are called consumers.
- 3 There are two types of leaves- i) Simple leaves ii) Compound Leaves
- 4 The process of making food with the help of water,carbon-dioxide , sunlight etc. is called photosynthesis.
- 5 Leaves are the food- making factories of green plants.
- 6 Chlorophyll is the green substance present in the leaves.

Activity:- Its not compulsory for all. Those who have plants at home in pots, they should keep one of the plant in sunlight and one at dark place. Then observe the difference in their growth after 8-10 days. Don't go outside to arrange the plant. ' Stay home Stay safe'

Learn and write difficult words(twice)

1. Diversity
2. Mountains
