Formative Assessment

Write them in your S.St copy

Q) Answer the following questions.

1) What does getting vaccinated mean?

Ans- Getting vaccinated means getting an injection or taking a medicine that stops you from getting some disease.

2) What happens if we throw garbage and polythene bags into drains?

Ans- If we throw garbage and polythene bags into drains, this will block drains and the dirty water will then spill onto the street.

3) How can you make your neighborhood a beautiful and a better place to live in?

Ans- We can make our neighborhood beautiful by planting trees and a better place to live in by helping each other.
