CHALLENGE

E. Classify the nouns in this passage into proper nouns, common nouns, collective nouns and abstract nouns.

Mother took her class of students to the zoo on Sunday. There was a crowd of people around the enclosure that housed a troop of monkeys. The zookeeper was feeding them a large bunch of bananas. The students shrieked in delight. The monkeys were swinging happily to everyone's joy. Unknowingly, Mother moved very close to the enclosure. One of the monkeys swooped and grabbed the string of beads that was around her neck. Mother yelled. Instantly, the zookeeper came to her aid. He gave a very useful piece of advice. He said, 'Monkeys are playful creatures and deserve our respect and kindness. We should respect their space. If we go too close to them, we might put ourselves in danger.'
