**D. Answer the following questions.**

1. What are pucca houses?

**Ans.** Pucca houses are made of bricks and cement. They are mostly found in towns and cities. Pucca houses are stronger than Kachcha houses.

2. Write the names of three materials used to build a house.

**Ans.** Straw, mud, cement, stones etc.

3. What are igloos? Where will you find them?

**Ans.** Igloos are houses made of blocks of snow and ice. They are found in places covered with snow all through the year.

**E. Think and answer.**

In places where it rains a lot, people make houses with sloping roofs.

Why?

**Ans.** In places, where it rains a lot, people make houses with sloping roofs to let the rainwater drain or slide off the roof.
