ii. GCT TECHNOLOGIES PVT. LTD (GALAXYCARD) retains the right to alter any charges or fees from time to time or to introduce any new charges or fees, as it may deem appropriate, with due intimation to cardholders.

Interest Free Grace Period

The interest free credit period could range from 15 to 50 days subject to the date of transaction and submission of claims by the merchant.

Finance Charges (Service Charges)

Finance Charges are payable at the monthly interest rate on all transactions including unpaid EMI instalments from the date of transaction in the event of the Cardholder choosing not to pay his balance in full, and on all cash advances taken by the Cardholder, till they are paid back. If the Cardholder makes partial or no payment of Total amount due (TAD) before Payment due date (PDD); i.e. the Customer has outstanding balance from previous months and in the current month, full payment of Total amount due is made before Payment due date then Finance charges will be levied on the closing balance till the payment date. The current rate of finance charges is 3% per month [36% per annum] from the transaction date and is subject to change at the discretion of GCT TECHNOLOGIES PVT. LTD (GALAXYCARD). Finance charges, if payable, are subject to levy of applicable taxes and are debited to the Cardholder's account till the outstanding on the card is paid in full.

Example 1 - Card Statement date – 1st of every month.

Transaction done between 1st June'18 – 30th June'18

1. Retail Purchase of Rs. 500 – On 10th June'18
2. Mobile recharge of Rs. 700 – On 20th June'18

Assuming No Previous Balance carried forward from the previous statements, the cardholder will get his 1st July statement showing Rs. 1,200 of transactions. The cardholder needs to make payment against the outstanding by 15th July 2018, i.e. 15 days from the Statement Date, for anything between the entire amount or Minimum Amount Due. Please note that any payment made against your Credit card outstanding, would first be cleared against your Minimum Amount Due (which is inclusive of all applicable taxes, EMI on Loan plans+10% of Total outstanding), fees and other charges (if any) followed by Balance Transfer balance (if any) and the retail balance (if any) at the end.

If the customer attempts to clear all pending dues on 25th July 2018 (10 days past due date) and considering the effective rate of 3% p.m., finance charge calculation will be done as follows:

On the balance of Rs. 500 (10th June 2018 to 25th July 2018) for 45 days: $(3*12)*(45/365)*500/100=$
Rs. 22.19

On the balance of Rs. 700 (20th June 2018 to 25th July 2018) for 35 days: $(3*12)*(35/365)*700/100=$
Rs. 24.16

Total Interest charged = Rs. 46.35

GST on Interest @ 18% = 8.34

Total amount due on 25th July 2018 = Rs 1254.69

Sum of Outstanding purchase amount, Interest charges, Fees and Charges, if any, and applicable taxes would reflect as the Total amount due in the 'amount due' section in the mobile app .

If the cardholder keeps making the Minimum Amount Due (10%) payment every month and also keep paying the interest amount he would clear the outstanding in 10 months (100%/ 10% – 10).
