Flexibility to Customize

We Only Grow... When Our Clients Grow

Integrated Print Order Management

Print industry is varied in terms of print products, their ordering process, print technology and sales channels. To help our clients accelerate growth & maximize productivity, we have developed wide range of solutions, which have helped our successful clients to reduce manpower required to process orders up to 67% & increased repeat sales up to 60%.

Complete Solution for

- SME to Large Printers
- Trade Printers
- In-Plant & Print Brokers

“

5+
years of
partnering

We checked several potential partners, but found OnPrintShop offered best W2P Solutions, flexibility and value, so contracted with them in 2011. That decision has translated to an annualized sales increase of over 30% year over year.

Struggling with

40.3%

PSPs in USA
investing in Multiple W2P

Research indicated 40.3% of PSPs in USA have ended up investing in Multiple W2P as all solutions have their strengths & limitations to integrate or customize or struggling to get support.

Understanding these challenges, OnPrintShop has launched a single platform - Unified W2P Advanced B2B nConnect to help integrate best of W2P technologies & multi sales channels into single platform.

Multiple W2P?

nConnect Benefits

Adapt To Changing Needs

Offer complete control to adapt to the fast changing needs of the business and clients

Case Study

Client is large Commercial Offset Printer specialized in premium-quality printing, with multiple stores and branches at different locations with major focus on corporate clients.

The Challenges

- Difficult to get complete view of business, as multiple W2P to manage multiple clients and sales channels.
- Very time-consuming and expensive to in-house develop additional modules due to lack of flexibility from existing W2P.
- Current B2B set up centrally managed, wanted branches to have control of same.
- Very high cost to manage and few of technologies had stopped support.

How OnPrintShop helped?

- ✓ Understood existing business and IT infrastructure.
- ✓ Identified the key challenges and key technologies to deliver desirable results.
- ✓ Developed complete integrated solution using Multi-Store Central Admin with B2B nConnect to add Third Party Designer Studio, CRM, Store Management Module, Retail Store and Custom Reports to give complete overview & control over business.
- ✓ Same front-end and back-end to manage multiple solutions.
- ✓ Supported Migration from existing W2P.
- ✓ Complete flexibility to customize & add third party tools as and when needed.

4 STEPS TO CREATE SUCCESSFUL ONLINE BUSINESS

01 Requirement Analysis

Our key goal is to understand client's online business objectives, their key products and clients. We go through multiple interactions to define clarity & suggest right solution offerings. In case of customization, our process includes detailed documentation, feasibility study & milestone based client approval.

02 Personalized Demo

Solution experts provide personalized demo to PSP's key team members & decision makers setting their key products & clients which can help take quick decisions. Also, provide demo links for self-evaluation till they feel satisfied & resolve any queries they have.

03 Solution Delivery

Delivering IT solutions since 2001, we have well-defined solution delivery process which includes project allocation, weekly progress report, group email, milestone based delivery. Every project goes through detailed QA, approvals, and installation.

04 Training & Personalized Support

We follow interactive training which is personalized and objective is to drive easy adaptability for internal team. Post training, our support team provides real-time support to help you maximize ROI. We provide store set up & migration assistance to easily launch the store.
