Registration followed by Campus Tour**

ABOUT JIRICO

Jindal Initiative on Research in IP and Competition (JIRICO) is an initiative of JGU. It focuses on initiating and complementing well-informed policy related deliberations that can result in concrete reforms. Towards this end, JIRICO seeks to become a leading think-tank that engages in interdisciplinary and high-impact work. This involves contributions from experts in the fields of intellectual property law, competition law, economics and management. Further, JIRICO focuses on global developments, with a special emphasis on the Indian policy environment, which inform stakeholders about the issues in this niche area. JIRICO provides a unique platform to facilitate dialogue amongst industry partners, policymakers, regulators, practitioners and academicians. We appreciate receiving a research grant from Qualcomm Inc.
