#### LENDINGKART CSR PROJECTS:

##### I. PROMOTING WOMEN EMPOWERMENT.

The Company, in association with Ahmedabad Women's Action Group, a public charitable trust, had distributed sewing machines to a group of women on International Women's Day, i.e. 8<sup>th</sup> March, 2021, with the primary objective of empowering them by making them self-reliant, and thereby leading to increased income and recognition and identity in a society.

The project aimed to empower deprived women & domestic violence victims to build their own self-sustaining sewing business. Having acquired the skills and the sewing machines to utilize their skills, the women will no longer have to work as labourers or fall into a trap of human exploitation. They will be able to come out of their debt trap and vicious cycle of poverty and work towards a promising future for themselves and their families, thereby creating a long-term multiplier effect.
