

Madhesh Institute of Health Sciences Institutional Review Committee (MIHS-IRC)

Janakpurdham, Madhesh Province, Nepal

Date: 21 July 2026

Dear All Prospective Researchers

(Faculty Members, Students, and Staff)

Madhesh Institute of Health Sciences, Janakpurdham, Madhesh Province

Subject: Notice for All Prospective Researchers Regarding Registration in IRERP

With the support of the World Health Organization (WHO), the Nepal Health Research Council (NHRC) has developed the Integrated Research Ethics Review Portal (IRERP)—a comprehensive online system for research ethics review and registration.

IRERP is a comprehensive platform that allows for the registration of Institutional Review Committees (IRCs) and serves as both a clinical trial registry and a national research registry. This system enables researchers to choose the appropriate IRC for their proposal submissions based on their institutional affiliation, funding status, and study risk level, consistent with the National Ethical Guidelines (2022).

The system is now prepared for implementation. Consequently, all prospective researchers (faculty, students, and staff of MIHS) are requested to register in the IRERP system as soon as possible.

Prior to registration, please prepare the following documents in digital format (all documents should be less than 5 MB):

1. Citizenship / Government ID
2. Last academic certificate (education/technical expertise)
3. ORCID ID
4. Research Ethics Training Certificate
5. Updated Curriculum Vitae (CV)
6. Scanned signature
7. The remaining optional documents may be uploaded later on the NHRC portal.

Registration can be completed directly at: <https://irerp.nhrc.gov.np/>

IRERP registration is mandatory prior to MIHS-IRC research proposal submission.

All prospective researchers are requested to complete their documentation and registration as early as possible, as MIHS-IRC will accept online proposal review through the IRERP platform.

If you encounter any difficulties or have questions while using the system, please feel free to contact the MIHS-IRC office.

Thank you for your cooperation.

Prof. Dr. Rameshwar Mahaseth
Chairman, MIHS-IRC
