9. A Total of 30 minutes [or as mentioned in your schedule] will be given for attempting ONE paper. This includes time for answering the questions and navigation of the test. Students need to sit properly to ensure a 360-degree view of the room by the proctors before (or during, if required) the examination begins. The camera of the laptop should focus downwards, not on the ceiling, to provide a complete view.

- When taking the test, students may not be able to view all the sections simultaneously. This is because the sections may be timed, or the questions may be mandatory.
- The entire session is recorded (both yourself as well as your laptop screen).
- Please make sure that you do not resort to any unfair means during the examination. Since this is an AI based live Proctored examination, the system may check you out in case it senses some unfair activity.
- It is preferable to have a room without any noise. Please ask your family members not to interfere during the examination as it may lead to your being disqualified from attempting the examination further. In case of any unavoidable circumstance of noise, it is possible that the system may check you out. Please try to be in a noiseless place.
- It would be better if you sat in front of the plain wall so the windows etc. may give the impression of someone else being present in the room.
- Test all your gadgets and network connection as suggested in the guidelines before the exam starts. Ensure that your laptop is charged.
- Ensure that the web camera is enabled and switched on with enough light for visibility.
- Uninstall any third-party software installed on the system for webcam before starting the test.
- Please only TYPE your details in the registration form and do not copy-paste. Please use only your registered email ID for logging into the exam.
- The Proctor is the final authority, and his decision would be final; don't argue with the Proctors. You can only chat with the Proctor, whereas the Proctor can view you and hear you all the time.

- Keep a check on your Proctor chat window. Proctors try to reach you only for important messages.
- Any break including Bio breaks are not allowed during the exam.
- Do not refer to any other material or do not browse the internet to find the solution. Your screen details will be captured from the backend for monitoring and review.
- During the exam do not access your mobile phones, earphones, or any other electronic device during the exam.
- Please note that the system will detect suspicious activities (additional people in the room, using mobile phones/calculators/books, candidate absence and other suspicious movement etc.), and report such activities to the authorities.
- There should be no one around you or talking to you while you are taking the exam.
- Please ensure that there are no loud noises or disturbances of any kind. Do not read the questions aloud.
