

I am Special

Late at night, a loud noise awakens Vidya and Alok. 'BOOM', 'CRASH', the Magic Potli falls down.

They open the Magic Potli to see the letters arguing. What's the action all about, they wonder! The Magic Potli says, "Each letter thinks that it is better than the other. They are arguing to decide who is the best among the 26 letters."

Vidya and Alok think of a plan to stop the argument. They decide to play the 'Introduction' game. Vidya says, "I am Vidya. I have a round face and black hair. I can sing and dance. I love music." Alok says, "I am tall and I love dancing and playing with my sister."

They tell the letters that it's their turn to introduce themselves. The letters line up and excitedly introduce themselves in the following manner:

Vidya and Alok clap for all the letters and say, "Oh! You all are so unique in your own way." Everyone sounds nice and different. We can form many words only when you are together. It's time to stop arguing and work together as a team. The letters go back into the Magic Potli and think of how to give Vidya and Alok a surprise treat by working as a team.
