Q.1: Read the Comprehension passage carefully and answer the following questions:

The Twins

Sita and Gita are twins. They were born on August 5, 2011. They are ten now and in the fourth standard. Sita and Gita do everything together. They are in the same class. They dress alike. They look the same. People always get them confused. This really makes Sita and Gita laugh.

Teachers always get them mixed up at school. Even their 'Appa' has trouble telling them apart. Their 'Amma' doesn't though. She always knows which twin is which. Sita and Gita often try to confuse her, but it has never happened. Their older brother Ganesh, is fifteen. He never knows which one is which. He doesn't even try. Sita and Gita have the same friends. Their friends always mix them up. It doesn't matter to Sita and Gita.

One day, their Appa told their Amma to get one of them a different haircut, so that he could tell them apart. Sita and Gita were horrified. They liked looking the same. Their Amma came to the rescue, and refused to make them cut their hair. The girls were happy just the way they were and didn't want to change. Their dad just shook his head. He would have to stay confused. Sita and Gita didn't care. They knew which one was which, and that was all that mattered.
