Q. 1: Read the Comprehension passage carefully and answer the following questions:

Answer the following questions:

Domains of the Earth

There are four major domains of the Earth- Lithosphere, Atmosphere, Hydrosphere and Biosphere.

The solid portion of the earth is called Lithosphere. The large land masses are known as continents. All continents lie in lithosphere.

There are seven continents. Asia is the largest continent and Australia is the smallest continent. Australia is called an island continent.

The part of the earth which is covered with water is called Hydrosphere- The Pacific Ocean, The Atlantic Ocean, The Indian Ocean, The Southern Ocean and The Arctic Ocean. The Pacific Ocean is the largest ocean.

The earth is surrounded by a layer of gases called the atmosphere. There are five layers in the atmosphere. The Biosphere is the narrow zone of contact between the land, water and air.

1a. How many domains of the earth are there?

- a. three b. two c. four d. five

1b. What is the Lithosphere?

1c. Which continent is called the island continent?

- a. Australia b. Asia c. Europe d. North America

1d. What is Hydrosphere?
