

NEW ERA PUBLIC SCHOOL
MAYAPURI, NEW DELHI-110064

NEPS/PAR.CIR./2020-21/08

13.04.2020

My Dear Children,

Good day to each one of you. I hope this letter finds you in good health and high spirits. Today is a very special day in the life and journey of our school. Our school has completed 60 years today. I feel immense pride and joy in sharing this time with you. It is my privilege to be leading our school. I salute our founder Mrs. Chopra, a lady of immense courage and great fortitude, my colleagues who are dedicated professionals par excellence and each one of you who I know will go on to become the best version of yourself in the future and make New Era proud.

You have been sequestered at home for over 3 weeks now. Your online classes are I'm sure helping you to stay in touch with the curriculum and study for a few hours daily. This discipline is vital for the present and for the future. Please treat the online sessions with seriousness and integrity. Your teachers have worked very hard and will continue to do so to keep bringing the school to you into your homes.

We currently have no inkling as to when the situation will revert to normalcy, so we all have to keep doing what needs to be done on a daily basis. This unique time is teaching us to understand our priorities. To focus on the important things in life...food, clothing, shelter and in your case education. If you have the first 3 and you add education to that, you can find your way out of virtually any problem you are in.

It is also teaching us that we need very little in life.....the multiple things that we keep aspiring for are only "wants". In the future we must learn to distinguish between the two and create an optimum balance to lead a fruitful life.

You are experiencing history being made. The world will henceforth be known as Pre Covid and Post Covid. In order to make this time more productive, help your parents to cook and clean and other chores if there is no domestic help available. Exercise patience as a daily practice. We are all in this together and we will all come out of it together.

I continue to monitor the attendance in the online classes regularly and am pleased to know that you are all very enthusiastic about them. Your teachers are equally enthusiastic and are feeling extremely empowered and productive in these very difficult times.

Please stay connected with your teachers, be kind to your family members, follow instructions given by the Govt. and above all stay positive. This too shall pass. We will all be together soon when we all will celebrate our school, our lives and our country.

My best wishes to each one of you.

Yours Vandana Ma'am
