

COMPASSIONATE CITIZEN'S CLUB

The school has come up with this club to sensitise the students about cruelty against animals....such as killing animals for food or for their fur and personnel pleasure. The member students were shown movies and were taken for a visit to the zoo to make them understand the plight of animals kept in captivity .The members of this club were also asked to share their experiences about any act of compassion towards stray animals they had come across around them. The club aims to make the students sensitive and compassionate human beings
