ETHICS AND ETIQUETTE

MEANING

Manners are a sensitive awareness of the feelings of others. If you have that awareness, you have good manners, no matter which fork you use."

ETHICS AND ETIQUETTE

Ethics and Etiquette

Ethics, etiquette, and moral values are essential for success in life. In order to achieve success one really needs to have considerable strength of character. The way there can be no light without the sun, similarly, there can be no character without ethics and values.

Ethics and etiquette are the most agreeable qualities to win people's trust and hearts. Without them it is impossible to rise the ladder of success in any profession.

Good Manners Teachers and friends.

Today I am going to tell you the story of Tony. Tony was an angry little boy. He was always rude with others. He used to scold and shout at his parents and brothers and never listened to them. He always made fun of others and never used the words like please, thank you or sorry.

One day Tony was playing near his home. An old lady came in and asked Tony the way to the garden. Tony shouted at her "Go and ask somebody. Can't you see that I was playing." The old lady felt insulted. She had some magic powers. She told Tony, from now on whenever you tell bad words a scar will appear on your face. That evening, Tony was eating his dinner. He shouted at his mother because he didn't like the food. Suddenly a scar appeared on his face. He then shouted at his younger brother to get a fork for him. Another scar appears on his face. Tony lost all his control and left the room with angry. Suddenly he fell down from the stairs and broke his leg.
