RESOURCE PERSON: Dr. Indu Khetarpal

The two-days English Capacity Building Programme for Class IX and X conducted on September 12 and September 13, 2018 in Arwachin Public School focused on developing the four fundamental skills associated with English language namely- Reading, Writing, Speaking and Listening. The seasoned teachers were advised to incorporate innovative strategies into their curriculum for the holistic development of the child. The child centric workshop grappled to hone the skills of well-experienced teachers so that an optimum result-driven environment is created. The workshop also served as an eye-opener for the novice teachers planning to impart and inculcate the love of language in young pupils.

The prime focus and aim of the workshop was to set an insurmountable task for English teachers to improvise their ways of working to achieve efficiency and efficacy in the proficient use of language by language learners. The teachers were advised to adapt to new technological advancements and strategize their lesson plans in such a way that pupils respond and also incorporate certain activities to channelize the energies of children in a desired direction. The workshop paved the way for a dialogue amongst teachers belonging to diversified background with completely different experiences so that they could learn from each other's experiences. It indeed proved to be a learning experience for every participant and the teachers were advised to incorporate innovative techniques to revolutionize the teaching-taught scenario and reinvigorate a spark amongst language learners to converse effectively and efficiently.
