VENUE: DWARKA INTERNATIONAL SCHOOL, SEC-12

RESOURCE PERSON: Mr. POORNIMJEET SINGH (TECH NEXT)

1) Brief outline of key issues and challenges addressed in the event

The issues addressed included:

- **CURRICULUM**

Why, how and when do children learn?

- **PEDAGOGY**

Different methods from which you can make your classroom teaching more effective

Play-based approach

Child centered approach

Integrated approach

Project-based approach

- **LEARNING ENVIRONMENT**

Providing a respectful, positive, safe, student centered environment that is conducive in learning

- **INTERACTION**

Partnership between Teacher- student, Teacher - Parent

2) OBJECTIVE

The objective of the workshop was to make classroom teaching more effective and creating an environment where children can retain their curiosity level.

3) LEARNING

The workshop was effective in certain ways given below:

- Curriculum which should give effective and useful learning for life.
- By adopting different and creative pedagogy
- An environment should be created where overall development that is linguistic, cognitive thinking, social, emotional and physical development of a child happens.
- A teaching approach should be created in a way where a child innates his/her curiosity in learning and they learn to explore the answers.
- The feedback and appreciation about children should be specific
- A teacher should have powerful interaction apart from perfect one.
