An introductory module of the **Awakened Citizen Programme** for **Class VIII** was conducted by teachers of **Class VIII**. The module started with explaining the meaning of “Being Heroic” and emphasized on “Facing Challenges and Keeping Commitments” such as being responsible , never leaving hope ,and staying positive & strong. It also laid emphasis on “Choosing to Obey” , to give respect to one’s work, obey suggestions by well wishers, not be forced to obey but choose to obey and go by the rules. The students imbibed a heroic spirit, they learnt that greater the difficulties we face, the more our heroic spirit is awakened. The modules provided them with motivation to set big goals and to have confidence of accomplishing them with commitment and determination. The module awakened students as future citizens with a focused approach in life.
