

NU Innovators Challenge

Our school is **winner of NU Innovators Challenge** in which more than 100 schools participated from Delhi-NCR region.

Students, named Niharika Tanwar, Soumya Pal and Lavanya Arien of Class XI A of our school presented the project on **Prevalence of Vitamin D and its cure**. Challenge was conducted in two rounds. In the first round only 23 schools with 26 projects were shortlisted based upon the idea and presentation.

In the second round , all the schools were invited to NIIT University to present their project once again in front of the panel comprising 8 judges from IIT Delhi, IIT Kanpur, Professors from Department of Science and Technology, Ministry of Science, Delhi university etc.

Important points of criteria of judgment as discussed by the panel was innovative idea, originality and practicality of idea and serving community.
