

## INTERNATIONAL ASTRONOMY DAY

International Astronomy Day was celebrated on 13<sup>th</sup> May 2021. Astronomy Club students prepared a PowerPoint presentation, which was shown to classes I to XII through Google meet.

The shared PPT highlighted the importance of the International Astronomy Day, facts about Astronomy and space, and the contribution of Indian scientists in the field of astronomy. Students were also shown a video highlighting the important astronomical events in 2021. Students enjoyed watching PPT and video. They also

attempted a short quiz on google form, to enhance their knowledge about astronomy and space.
