

CLASS 2
HOLIDAY HOMEWORK
MATHS

Activity 1: Collage Making

Learning Outcome. The children identify and describe basic 2D shapes by their names with their observable characteristics and establish co-relation with everyday objects.

Material Required. Any paper, scale, crayons if needed.

Description of Activity. Make a collage using 2D shapes like triangle, circle, square, rectangle or any other shapes of your choice. The collage should be in the form of some object such as a bus, house or a tree.

Methodology. The picture below is just one of the ways to create the Collage.

Method of Submission. Upload the picture of your work on Google Classroom.

Reference. AAC Manual.
