

Sports Evening– 10/04/2015

To give an experience to the students of playing under flood lights, the school on 10th April 2015 organized a evening of sports for the students of primary classes.

The school has created a multigame playfield with artificial grass with facilities for basket ball, volley ball, football and a cricket pitch all under flood lights.

The students were accompanied by their parents and with lots of enthusiasm and excitement they played all the sports under flood lights. The main highlight of the evening was that the parents also had a chance to play the games with their children.

In all it was a Fun filled evening of sports for our students and parents.
