English is the language of science, of aviation, computers, diplomacy, and tourism. Knowing English increases youngsters' chances of getting a good job in a multinational company within their home country or for finding work abroad. It's also the language of international communication, the media and the internet, so learning English is important for socializing and entertainment as well as work!

Keeping the above thought in minds, we encourage students to participate in **ENGLISH SPEECH COMPETITION** outside a class environment for the classes **IX - X** on **11th August' 2020**.

The competition was conducted to develop the functional skills of students.

Congratulations! Our Star Performers.

We are so pleased to see you accomplishing great things and wish you've shown on the way to achievement.
