

DELHI PUBLIC SCHOOL MARUTI KUNJ

ROAD SEFETY SESSION

An educational session was organised by MARUTI SUZUKI for the students of classes VI, VII & VIII. Mr. Shubham and Mr. Hassan took the session. They had an interaction with the students. At the end of the interaction, the students were given a form to fill, which they did as per their previous knowledge.

This was the first step for making the students aware of Road Safety . they were motivated not to drive vehicles and wear helmets while sitting at the bikes.

In the next step Ms. Shalini took an interactive session with the students of classes VI, VII & VIII. There were different phases for the session. It began with a powerpoint presentation and followed by questions and answers. They were also given sheets to fill both at the beginning and at the end so as to see how much they could grasp. At the end, a Road Safety Club was formed, comprising of ten students from class VIII. They will have a key role of maintaining discipline in the school in the days to come. We look forward to have more awareness among the students about better living conditions in the society.
